COIL CARE #2240

Heavy-Duty Degreaser for Air Conditioning Coils, Fins and Filters

PRO CHEM ®

Features:
- Acid-free
- Biodegradable
- Non-corrosive
- Non-polluting
- Non-flammable
- Non-toxic
- Concentrated liquid

Description:
COIL CARE is a concentrated water-based, butyl, heavy-duty cleaner/degreaser. It has the ability to penetrate, emulsify and lift away most soils found on air conditioning coils, fins and filters. Regular use boosts air conditioning systems efficiency and also helps cut electrical costs. This product will not induce corrosion of ferrous materials. This product is environmentally safe. It contains no highly toxic solvents and the surfactants contained are considered 95% biodegradable. As a cleaner, it removes soils such as grease, ink, oil, dirt, wax and carbon. Removes stains associated with mold and mildew.

COIL CARE is intended for use as a compound for treating boilers, steam lines, and/or cooling systems where neither the treated water nor the steam produced may contact edible products in areas of official establishments operating under the Federal meat, poultry, shell egg grading and egg products inspection programs where there is no possibility of food contact in food processing and food handling establishments.

Applications:
- Coils
- Fins
- Filters

Product Characteristics:

Physical State:	Liquid
Color:	Purple/clear
Odor:	Solvent
Boiling Point:	212°F
Vapor Pressure:	Unknown
Specific Gravity:	1.05
Water Solubility:	Complete
Flash Point:	Not available
pH:	12.5-13.5
Storage:	Store locked up.
Transport Information:	
UN Number:	N/A
Proper Shipping Name:	N/A
Class:	8 - Corrosive
Packing Group:	II

DOT Placard:
Yes.

Directions:
Turn the unit off. Dilute one part concentrate to 10 parts water. Using a pump-up sprayer, apply directly to fins and coils. Allow the solution to remain for 3 minutes, and rinse surfaces thoroughly with water.

NOTE: DO NOT USE UNDILUTED NEAR GLASS, WATER-BASED PAINTED SURFACES, COPPER OR ALUMINUM.
The use of all cleaning compounds in federally inspected meat and poultry establishments must be followed by a potable water rinse.
