

Features

- ADA Compliant.
- Designed for use with Natural Air Gel 8 oz.
- Can be mounted to most surfaces using the industrial strength double-face tape provided with each unit

**Description**

The Natural Air Gel Wall Mount Unit is designed to hold one jar of 8 oz. gel. It can be easily mounted to most surfaces. Made of white plastic, the unit is functional and subtle, hiding the product out of sight allowing it to work discreetly. It features a cutout in the bottom of the unit making it easy to see how much product is remaining and for ease of removal once it is time to replace the product.

Applications

- Restrooms
- Resident rooms in long term care facilities
- Patient rooms in acute care facilities

Directions

The mounting surface must be free of dirt & grease. Wipe down the mounting surface with alcohol before adhering the Wall Mount Unit to the surface of the wall.

Mount the unit at least 7 ft. above the floor, but not closer than 12 in. from the ceiling. For longest life of Natural Air Gel, locate the Wall Mount Unit comfortably away from air return and air supply vents as well as windows. Locating the units too near excessive air flow may accelerate evaporation.
