

Product Information Sheet

Features

- VOC restricted
- Contains no chlorinated hydrocarbons
- Non-flammable
- Non-conductive
- Dielectric Strength 29,600
- Versatile cleaner/degreaser

Description

SOLV-IT is a highly versatile, high flash point solvent-based degreaser for all of your specialized cleaning needs. SOLV-IT has a low evaporation rate that ensures continuous and effective cleaning power. This product is specially formulated to remove accumulated soil, grease, and oil deposits from all types of metal. Great for cutting carbonized soils and will not flash rust when applied to bare metal. Use with our Sure Shot sprayer for easy, convenient application.

Applications

- Valve Covers
- Fuel Pumps
- Master Cylinders
- Rocker Arms
- Power Tools
- Automotive and Engine Parts
- Machinery
- Equipment
- Processing Equipment

Directions

SOLV-IT is ready to use and can be brushed on, wiped on, mopped on, or sprayed on. Choose application appropriate for job. When using refillable steel sprayers, follow directions from sprayer manufacturer.

PARTS WASHER

Fill the reservoir of an approved parts washer with SOLV-IT. Use washer as directed by the manufacturer to clean and degrease metal parts.

Remove excess SOLV-IT using a soft cloth or allow to air dry. If air-drying, note that SOLV-IT is designed to evaporate over an extended period of time to allow for maximum corrosion prevention. Use with adequate ventilation.

Product Specifications

Appearance	Clear liquid
Odor	Solvent, slight
Odor Threshold	N/D
Vapor Density (Air= 1)	5.4
Evaporation Rate	0.14 (Butyl acetate= 1)
Solubility in Water	Insoluble in cold water
Vapor Pressure	0.043 kPa (0.32 mm Hg) [20°C]
Storage	Store between 40-120°C
Flash Point	61.667°C (143°F)[Closed Cup: Pensky-Martens]
Transportation Information	
Class#	55

Health	1
Flammability	2
Reactivity	0
PPE	B
