8. Exposure Controls / Personal Protection EXPOSURE GUIDELINES: CHEMICAL EXPOSE

EXPOSURE LIMIT

1,1-Difluoroethane

1000 ppm TWA AIHA WEELs

APPROPRIATE ENGINEERING CONTROLS:

General ventilation should be adequate for normal use. For operations where the exposure limits may be exceeded, forced ventilation such as local exhaust may be needed to maintain exposures below applicable limits.

PERSONAL PROTECTIVE EQUIPMENT:

Respiratory Protection: None under normal use conditions. For operations where the exposure limits may be exceeded, a NIOSH approved supplied air respirators recommended. Equipment selection depends on contaminant type and concentration. Select in accordance with 29 CFR 1910.134; all applicable laws and regulations; and good industrial hygiene practice.

Gloves: Impervious gloves recommended to avoid skin contact.

Eye Protection: Safety glasses are recommended if eye contact is possible.

Other Protective Equipment/Clothing: None required.

9. Physical & Chemical Propertie

Stability & Reactivity Information

Appearance and Odor: Whi	te viscous paste with acetic acid odor.	Flash Point: > 100°C (> 2	12°F) CC (Liquid component)
Physical State:	Thick liquid under pressure	Specific Gravity:	1.007 (Liquid component)
Odor Threshold:	Not determined	Vapor Pressure:	Not determined
pH:	Not determined	Relative Vapor Density: (Air = 1)	Not determined
Initial Boiling Point/Range:	Not determined	Percent Volatile:	Not determined
Melting/Freezing Point:	Not determined	Evaporation Rate: (n-butyl acetate = 1.0):	Not determined
Solubility In Water:	Not determined	VOC Content:	Not determined
Kinematic Viscosity:	Not determined	Autoignition Temp:	Not determined
Decomposition Temperature:	Not available	Flame Extension:	Not determined
Coefficient Of Water/Oil Distri	bution: Not determined	Flammability:	Not applicable
Particle Characteristics:	Not applicable	Flammability Limits:	LEL: Not applicable
			UEL: Not applicable

10. Stability & Reactivity Information					
REACTIVITY:					
Not normally reactive.					
CHEMICAL STABILITY:					
Stable under normal storage and handling conditions					
POSSIBILITY OF HAZARDOUS REACTIONS:					
None expected.					
CONDITIONS TO AVOID:					
Keep away from excessive heat, and open flames. Containers may rupture at temperatures > 120°F (48.8°C).					
INCOMPATIBLE MATERIALS:					
Strong oxidizing agents, strong bases, and strong acids.					
HAZARDOUS DECOMPOSITION PRODUCTS:					
Burning may produce silicon oxides; carbon oxides.					
11. Toxicological Information					
POTENTIAL HEALTH EFFECTS					
ACUTE HAZARDS:					
Inhalation: Vapors can irritate the throat and respiratory tract.					
Skin Contact: May cause mild irritation.					
Eye Contact: May cause mild irritation.					
Ingestion: Swallowing may cause gastrointestinal disturbances.					
Chronic Effects: None expected. CARCINOGENICITY LISTING:					
None of the components listed is a carcinogen or potential carcinogen by IARC, NTP, ACGIH or OSHA NUMERICAL MEASURES OF TOXICITY:					
1,1-Difluoroethane: LC50 Inhalation Rat: 437,500ppm/4h					
12. Ecological Information					
ECOTOXICITY:					
1,1-Difluoroethane: LC50 Fish 719.61 mg/L/ 96hr (Calculated)					
PERSISTENCE AND DEGRADABILITY:					
No data available for product.					
BIO ACCUMULATIVE POTENTIAL:					
No data available for product.					
MOBILITY IN SOIL:					
No data available for product.					
OTHER ADVERSE EFFECTS:					
No data available.					

Dispose of in accordance with all local, state/provincial, and federal regulations. Offer empty containers for recycling

14. Transportation Information

DOT Hazardous Materials Description: UN1950, Aerosols, 2.2 LTD QTY IMDG Dangerous Goods Description: UN1950, Aerosols 2.2 LTD QTY

15. Regulatory Information

UNITED STATES:

EPA TSCA INVENTORY: All of the components of this material are listed on the Toxic Substances Control Act (TSCA) Chemical Substances Inventory.

CERCLA Section 103: This product has no RQ, however, oil spills must be reported to the National Response Center. Many states have more stringent release reporting requirements. Report spills required under federal, state, and local regulations.

SARA Hazard Category (311/312): Classified under OSHA Hazcom 2012 GHS as per Section 2 of this SDS.

SARA 313: This product contains the following chemicals subject to Annual Release Reporting Requirements under SARA Title III, Section 313 (40 CFR 372): None

California Proposition 65: This product does not contain substances known to the state of California to cause cancer and/or reproductive toxicity.

16. Other Information

DISCLAIMER:

To the best of our knowledge, information contained herein is accurate. However, there is no assumption of liability for the accuracy or completeness of the information contained herein. Final determination of suitability of any material is the sole responsibility of the user. All materials may present unknown hazards and should be used with caution. Although certain hazards are described herein, we cannot guarantee that these are the only hazard, which exists. The information contained in this SDS was obtained from current and reliable sources; however, the data is provided without any warranty, expressed or implied, regarding its correctness or accuracy. Since the conditions or handling, storage and disposal of this product are beyond the control of the manufacturer, the manufacturer will not be responsible for loss, injury, or expense arising out of the product simproper use. No warranty, expressed or inferred, regarding the product described in this SDS shall be created or inferred by any statement in this SDS. Various government agencies may have specific regulations regarding the transportation, handling, storage, use, or disposal of this product, which may not be covered by this SDS. The user is responsible for full compliance.
