

# FRESH JELL #2357

## Jelled Spray Air Freshener

### Features:

- Sprays as a liquid then becomes a jell that slowly evaporates
- Long lasting
- Will not leave a residue

### Description:

FRESH JELL is a breakthrough air freshener that lasts longer than other space sprays. This product is a gelatinous fluid in the bottle, but after a little shaking, it liquefies and can be sprayed through a trig sprayer. After it hits the surface, it jells again and clings to the surface as it slowly evaporates.

### Applications:

- Trash Can Liners
- Around Urinals
- Above Ceiling Fans
- Under Sinks
- Carpets/Floors
- Bricks
- Behind Toilets
- Air Intakes
- Ceiling Tile

### Product Characteristics:

Physical State:	Solid jell
Color:	Light purple, translucent
Odor:	Fruity blossom fragrance
Initial Boiling Point:	84°C
Vapor Pressure:	Not determined
Specific Gravity:	0.984
Water Solubility:	Soluble
Flash Point:	Not available
pH:	7.5-9.0
Storage:	Keep out of reach of children. When storing container, keep container locked up and lid closed tightly.
<b>Transport Information:</b>	
UN Number:	Not regulated for transport.
Proper Shipping Name:	Not regulated for transport.
Class:	Not regulated for transport.
Packing Group:	Not regulated for transport.

### Directions:

Shake well before using. Non-staining, but pretest on all surfaces to ensure compatibility. Spray a fine mist on areas that receive or produce airflow such as ceiling tiles, entryway matting, restroom partitions, doors, door frames, fans, HVAC filters and vents, locker vents, behind toilets, under sinks, etc. Reapply every 2-4 weeks or as needed when more odor control is desired.
