

# MINI-TAC PRO #445201

## Personal Tactical Light

### Features:

- Flashlight or strobe light
- Momentary or constant on
- Three brightness levels and strobe
- 50,000+ hours LED life
- Sharp, focused beam for distance work
- Aircraft-grade 6061-T6 aluminum
- Type III hard anodized finish
- Non-slip grip
- Waterproof
- Impact and chemical resistant
- Meets the requirements of NFPA-1971-8.6 (2013)
- Powered by 2 AA batteries

### Description:

The MINI-TAC PRO uses a CREE LED rated at 200 lumens with a high-efficiency deep parabolic reflector. The reflector creates a tight, long beam for distance illumination. It can be used as a flashlight or a strobe light. The rugged tail switch makes changing the setting easy and provides momentary or constant-on function along with three brightness settings and a disorientating strobe. This light also comes with a removable pocket clip.

### Specifications:

- Lumens:
  - High 200
  - Medium 90
  - Low 45
- Run Time:
  - 1 hour 30 minutes for high
  - 4 hours for medium
  - 6 hours for low
- Single tail cap switch
- Drop Rating: 2 meters
- Dimensions
  - Length: 6 inches (152 mm)
  - Weight: 3.2 ounces (91 g)
  - Handle Diameter: 0.6 inches (15 mm)
  - Head Diameter: 0.9 inches (23 mm)

### Applications:

- Industrial
- Automotive
- Public Safety
- Military
