

# ACID ERASER - #2285

## Acid Neutralizer & Degreaser

### Features:

- Neutralizes, degreases and cleans fork lift batteries.
- Eliminates trickle discharges to ensure optimum performance.
- Extends the life of the battery and material handling equipment.
- Neutralizes and cleans concrete floors in battery rooms.
- Minimizes safety risks by eliminating acid burns and shock.
- Use on rollers, stands, forklifts, under battery racks and floors.
- Biodegradable, noncorrosive and environmentally safe.
- pH color indicators alert users of acidic corrosion.
- Easy to apply and safe to use on metal, plastic and rubber.
- Complies with OSHA Regulation 1917.157(a)

### Description:

ACID ERASER is formulated to neutralize and clean batteries to provide optimum performance. It protects equipment and extends battery life while minimizing maintenance costs. It is easy to apply and safe to use on metal, plastic and rubber. It will change colors when in the presence of acid, alerting the user to acidic corrosion, and will change back to the original color when the acid has been neutralized. Properly maintaining batteries with ACID ERASER will ensure optimum performance, extend the life of the battery and eliminate safety concerns.

### Applications:

- Battery Stands
- Battery Rollers
- Changing Equipment
- Forklift Compartments
- Concrete Floors
- Battery Drip-Trays

### For Use By:

- Bus Garages
- Factories
- Industrial Plants
- Fleet Operations
- Golf Courses
- Utility Companies

### Product Characteristics:

Appearance:	Amber
VOC Content:	0
Flammability:	Not applicable
Vapor Pressure:	No data available
Specific Gravity:	1.002
Solubility (water):	Soluble
pH:	9
Flash Point:	Equal to water
Odor:	None
Storage:	Store in a cool, dry area. Prevent product from freezing. Keep closed when not in use. Avoid direct sunlight and/or excessive heat. Keep out of reach of children.
<b>Transport Information:</b>	
UN Number:	Not applicable
Proper Shipping Name:	Non-hazardous liquid
Class:	Not regulated
Packing Group:	Not applicable

### Directions:

Liberally apply by spraying on battery cells, cables, and casings while keeping cell caps tightly closed. It will change colors in the presence of acid and change back to its original color when neutralized. Agitate with a brush and wipe clean with a cloth. Rinse with water or allow to air dry.

**Battery Stands, Rollers & Racks:** Liberally apply by spraying on the rollers, stands and racks. Agitate with a brush and wipe clean with a cloth. Rinse with water or allow to air dry.

**Concrete Floors:** Apply liberally by spraying on concrete floors. Agitate with a brush and allow product to remain on floors undisturbed for a few minutes before rinsing.
