

Designed For Use With Pro Chem's AirMatic Dispenser

Stops unwanted odors and deodorizes the air in bathrooms, kitchens and any other areas where a malodor exists. The metered valve delivers precise spray volumes in an ultra fine mist to effectively freshen rooms up to 6,000 cubic feet. Formulated to neutralize tough odors, such as sulfides (from eggs, garlic and onion), amines (from fish) and pyridine (from tobacco smoke). A fine spray pattern keeps areas smelling fresh longer.

RECOMMENDED FOR USE IN: Schools, Hospitals, Institutions, Lodging Facilities, Offices, and other places where people gather.

DIRECTIONS FOR USE: Remove protective cap and install in an AirMatic Dispenser. Dispenser should be mounted 7 ft. from the floor and at least 8 ft. away from exposed foods. Position so that the concentrated spray will not hit people, animals, foods, drinks, feeds, food processing surfaces, or solvent-sensitive surfaces (such as polished or varnished materials). Use only in a well ventilated area. Avoid inhaling spray mist or vapor.

This can contains 3000 controlled sprays for use in closed areas that will last for approximately 30 days when used on a 24 hour basis or 60 days if used 12 hours per day when set to dispense every 15 minutes.
