

# BATTERY SAVER #1252

## Aerosol Battery Terminal Cleaner and Protector

### Features:

- Extends battery life
- Color performance indicator
- Improves battery efficiency and increases power output
- Provides residual corrosion prevention
- Penetrates through corrosion and emulsifies dirt and grease
- Neutralizes battery acid

### Description:

BATTERY SAVER is a one-step terminal cleaner and protectant that dissolves corrosion and neutralizes battery acid. It helps to eliminate power leaks, thereby restoring full starting and running power. A color indicator advises when all corrosive acid buildup has been neutralized. Surface is left treated with an anti-corrosion coating, which prevents buildup and helps to extend battery life after cleaning is complete.

### Applications:

- Automobiles
- Trucks
- Buses
- Golf Carts
- Forklifts
- Boats
- Agricultural Vehicles
- Tractors
- Taxis

### Product Characteristics:

Appearance:	Spray aerosol
Odor:	No data available
Boiling Point:	No data available
Vapor Pressure:	2,757 - 4,136 hPa (20°C)
Explosive Limit – lower (%):	Estimated 1.9% (V)
Explosive Limit – upper (%):	Estimated 9.5% (V)
Relative Density:	No data available
Flash Point:	-156.0°F (-104.4°C)
pH:	No data available
Relative Density	No data available
Storage:	Protect from sunlight. Do not expose to temperatures exceeding 50°C/122°F.
<b>Transport Information:</b>	
UN Number:	UN1950
UN Proper Shipping Name:	Aerosols, flammable
Class:	2.1
Packing Group:	Not applicable

### Directions:

Brush or wipe off excessive loose corrosion deposits. Spray over entire battery surface and allow to stand 3-5 minutes. Flush with water. Apply final coat for long-term protection. Product may stain. Protect adjacent surfaces.

### Pictograms:

**Signal Word:**  
DANGER.

### Personal Protective Equipment Required:

### DOT Placard:

### VOC Compliant:

Yes.
