

BRIGHT LIGHTS #1291

Aerosol Headlight Cleaner, Polisher and Protector

Features:

- Cleans and polishes
- One step process
- Built-in UV protector

Description:

BRIGHT LIGHTS contains a thick cleaner that removes films, dirt and UV damage along with the everyday grime that attaches to plastics outside of the car. It completely removes all yellow, UV lines, acid rain spots and all minor scratches from the headlight carbon plastic units.

Also safe to use on Plexiglas and tail lights.

Applications:

- Car Dealerships
- Police Departments
- Fleet Operations
- Bus Garages
- Mobile Detailers
- Rental Companies
- Freight Carriers
- Military Facilities
- School Systems

Flash Point:	Not available
pH:	Not available
VOC (%):	15.02918%
Density:	7.85514 lb/gal
Density VOC:	1.18056 lb/gal
VOC Actual:	141.46694 g/l
Storage:	Protect from sunlight. Do not expose to temperatures exceeding 50°C/122°F. Store locked up.
Transport Information:	
UN Number:	UN1950
Proper Shipping Name:	Limited quantity aerosols
Class:	2.1
Packing Group:	Not available

Directions:

Remove protective cap. Tilt can upside down and apply a diagonal strip of BRIGHT LIGHTS to the headlight protective plastic lens. Let the foam set up for 30 seconds then rub the foam into the lens. Using an up and down, side to side and circular motion, continue to rub BRIGHT LIGHTS into the lens until you hear a squeaking or chirping noise. This means that the product is working. Buff off with a clean microfiber cloth, applying pressure in an up and down and side to side motion. This will leave your headlights with a fine gloss shine. Apply a second coat by repeating the steps above to make the clarity even better.

DOT Placard:

Not for sale in California.

VOC Compliant:

Yes.
