COIL BRITE #1238

Aerosol Bio-Enzymatic Foaming Coil Cleaner

PRO CHEM

Features:

- Bio-enzymatic action causes the breakdown of organic blockages to help keep drip pans and drain lines clean, free flowing and odor free
- No-rinse formulation
- Non-acid and no harsh fumes
- Increases air flow and unit efficiency, saving you money
- Foaming action penetrates deep into the coils
- · Restores cooling efficiency while reducing energy consumption
- Deodorizes as it cleans

Description:

COIL BRITE is a powerful, non-acid, foaming coil cleaner that is formulated for continuous cleaning. Its bio-enzymatic action facilitates the breakdown of organic odors and blockages. The powerful spray generates a thick, water-based foam that blasts deep into the coils to loosen and remove grease, dirt, lint, grime and other efficiency-robbing elements from evaporator coils.

Applications:

- Roof Heating & Cooling Units
- Cold Storage Compartments
- Air Conditioners
- Wall & Window Units
- Refrigerated Trucks
- Refrigerators
- Heat Pumps
- Dryers

- Ice Machines
- Freezers
- Radiators
- Ventilators

For Use By:

- Industrial Plants
- Housing Authorities
- Municipalities
- Colleges/Universities
- School Systems
- Correctional Facilities
- Hospitals
- Military Facilities
- Warehouses

Product Characteristics:

Physical State:		Liquid
Form:		Spray Aerosol
Odor:		No data available
Vapor Pressure:		No data available
Relative Density:		No data available
Boiling Point:		No data available
Flash Point:		-104.4°C
Flammability(solid/gas):		Non-flammable Aerosol
Storage:	Protect from sunlight. Store in a well-ventilated	
	place. Store locked up.	
Transport Information:		
UN Number:		UN1950
Proper Shipping Name:		Aerosols, non-flammable
Class:		2.2
Packing Group:		II

DOT Placard:

VOC Compliant:

*Not for sale in California.

Directions:

Before using, turn off power. Protect all electrical equipment and parts with plastic or aluminum wrap. Spray area thoroughly with penetrating and holding foam. Foam breakdown and dirt absorption indicates when surface may be flushed clean, if desired. Rinsing is not required. For stubborn buildup, a repeat application may be necessary. Can also be sprayed directly into drip pans and drain lines.

NOTE: Initial cleaning of heavily soiled areas may require the use of more aggressive products prior to implementing the regular use of these safer alternatives.
