

DIRECTIONS FOR USE

SURFACE DEODORIZING: Use this product in concentrate form or dilute up to 1 ounce per gallon depending on odor conditions. Spray directly onto surfaces such as bathroom tiles, around urinals and toilets, or inside surfaces of garbage receptacles.

DEODORIZES CARPETS: Spray directly on problem areas to be treated.

HOSPITALS: Spray directly on bed pans, urinals, diaper and bandage collection containers.

MOTELS/HOTELS: Spray a little around each bed, carpet corner and toilet.

AUTOMATIC SCRUBBERS: Add up to 1 ounce to each gallon of cleaning solution.

MOP BUCKETS/SCRUB WATER: Use as little as 1 ounce per bucket of cleaner. Spray a little on cleaning rags and mop heads to deodorize them before storing.

DEODORIZE ROOMS: A few drops added to a pan of water will create a long lasting, clean air environment.

KENNELS: Remove animals from area. Use up to 1 ounce per gallon of water. Mop or spray on surface to be deodorized. Let air dry.

EVERGREEN

Pro Chem, Inc. 1475 Bluegrass Lakes Parkway Alpharetta, GA 30004 (770) 740-2800 Fax (770) 740-2807

DESCRIPTION

This product eliminates all organic odors in a new way. You spray it directly on the odor problem. Directly on carpets (will not stain) floors, bed linens, in baskets, garbage pails, disposal units, toilets, closets, cigarette urns, etc.

This product is a concentrate and can be used at full strength- a few drops at a time- or in dilution. See other panel for directions.

ELIMINATE

Pet Odors • Urine • Vomit • Feces • Garbage • Smoke • Paint • Mustiness • Mildew • Sewage

AND ALL OTHER ODORS

Note: Always pretest on inconspicuous area for colorfastness and compatibility before using.

FIRST AID:

INGESTION: Give 8 to 16 ounces of water to dilute substance. Call a physician or local Poison Control Center immediately. Never give anything by mouth to an unconscious person.

EYES: Flush eyes with water for at least 15 minutes. If irritation persists call a physician.

SKIN: If skin becomes irritated, flush with water.

INHALATION: If symptoms of overexposure develop, remove to fresh air.

PRIMARY ROUTES OF ENTRY: Skin contact/absorption and inhalation of mists.

TARGET ORGAN EFFECTS: Kidney lesions at high oral doses.

NFPA/HMIS CODES	Least-0	Slight-1
	Moderate-2	High-3 Extreme-4

NFPA/HMIS: Health - 1, Flammability - 1, Reactivity - 0
Protective Equipment: Safety glasses and rubber gloves
