HANDLING:

Use spark-proof tools and explosion-proof equipment. Avoid contact with eyes, skin, and clothing. Wash thoroughly after handling. Use only in a well-ventilated area. Follow all SDS/label precautions even after container is emptied because they may retain product residues.

| 8. Exposure Controls / Personal Protection | | | |
|--|-----------|----------|------|
| CHEMICAL NAME | ACGIH TLV | OSHA PEL | STEL |
| Hydrogen peroxide (H2O2) | N/A | N/A | N/A |

PERSONAL PROTECTIVE EQUIPMENT: Goggles, gloves, face shield

EYE PROTECTION: Chemical splash goggles in compliance with OSHA regulations are advised; however, OSHA regulations also permit other type safety glasses. Consult your safety representative.

SKIN PROTECTION: Wear rubber gloves (consult your safety equipment supplier). To prevent repeated or prolonged skin contact, wear impervious clothing and boots.

RESPIRATORY PROTECTION: If workplace exposure limits of product or any component are exceeded (see exposure guidelines) NIOSH/OSHA approved air supplied respirator is advised in the absence of proper environmental control. OSHA relations also permit other NIOSH/OSHA respirators (negative pressure type) under specific conditions (see your industrial hygienist). Engineering or administrative controls should be implemented to reduce exposure.

ENGINEERING CONTROLS:

Provide sufficient mechanical (general and local exhaust) ventilation to maintain exposure below level of overexposure (from known, suspected, or apparent adverse effects).

| 9. Physical & Chemical Properties | | | |
|------------------------------------|------------------|----------------------------|----------------|
| Appearance: | | Flammability: | Not available. |
| Physical State: | Liquid. | Boiling Point: | 212°F |
| Color: | Colorless/clear. | Density Ibs/gal: | Not available. |
| Odor: | Orange. | Pounds Per Cubic Foot: | Not available. |
| Odor Threshold: | Not available. | Flash Point: | Not available. |
| pH: | 5.5-6.5 | Vapor Pressure: | Not available. |
| Melting Point: | Not available. | Vapor Density: | Not available. |
| Partition Coeff (n-octanol/water): | Not available. | FP Method: | Not available. |
| Viscosity: | Not available. | Solubility: | Complete. |
| Specific Gravity: | 1.01 | Auto-Ignition Temperature: | Not available. |
| Evaporation Rate: | Not available. | Decomposition Temperature: | Not available. |
| LEL: | Not available. | VOC%: | Not available. |
| | | UEL: | Not available. |

10. Stability & Reactivity Information

REACTIVITY: Stable. INCOMPATIBLE MATERIALS: None. CONDITIONS TO AVOID: Temperature extremes. DECOMPOSITION PRODUCTS: Will not occur. HAZARDOUS POLYMERIZATION: Will not occur.

11. Toxicological Information

PRIMARY ROUTE(S) OF ENTRY:

Skin contact/absorption and inhalation.

SIGNS AND SYMPTOMS OF OVEREXPOSURE:

Gastrointestinal irritation (nausea, vomiting, diarrhea), irritation to nose, throat, and respiratory tract.

TARGET ORGAN EFFECTS:

Overexposure to this material (or its components) has been suggested as a cause of the following effects in laboratory animals and may aggravate pre-existing disorders of these organs in humans: chronic ingestion may cause kidney and liver lesions at high doses.

IMMEDIATE HEALTH EFFECTS:

EYES: Exposure may cause noticeable pain, and severe irritation.

SKIN: Exposure may cause mild skin irritation. Prolonged or repeated exposure may dry the skin. Symptoms may include redness, burning, drying and cracking, and skin burns. Additional symptoms of skin contact may include: allergic reaction. Skin absorption is possible, but harmful effects are not expected from this route of exposure under normal handling and use.

INHALATION: Exposure to vapor or mist is possible. Short-term inhalation is not likely to cause harmful effects; breathing large amounts may be harmful. Symptoms are more typically seen at air concentrations exceeding the recommended exposure limits.

INGESTION: Single dose oral toxicity is low. Swallowing small amounts during normal handling is not likely to cause harmful effects; swallowing large amounts may be harmful.

REPRODUCTIVE/DEVELOPMENTAL INFORMATION:

No data.

| CARCINOGENIC INFORMATION: This material is not listed as a carcinogen by IARC, NTP, or OSHA. | |
