Keep away from foodstuffs, beverages and feed. Immediately remove all soiled and contaminated clothing. Wash hands before breaks and at the end of work. Avoid contact with the eyes and skin.		
RESPIRATORY PROTECTION	Not required under normal conditions of use. Use suitable respiratory protective device in case of insufficient ventilation. NIOSH approved organic vapor respirator equipped with a dust/mist pre-filter should be used.	Not required under normal conditions of use. Use suitable respiratory protective device in case of insufficient ventilation. NIOSH approved organic vapor respirator equipped with a dust/mist pre- filter should be used.		
SKIN PROTECTION:	The glove material has to be impermeable and resistant to the product/ the substance/ the preparation. Due to missing tests no recommendation to the glove material can be given for the product/ the preparation/ the chemical mixture. Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation.	No protective equipment is needed under normal conditions.		
Material of gloves:	The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material cannot be calculated in advance and has therefore to be checked prior to the application.	No protective equipment is needed under normal conditions.		
Penetration time of glove material:	The exact break through time has to be found out by the manufacturer of the protective gloves and has to be observed. For the permanent contact gloves made of the following materials are suitable: Rubber gloves.	No protective equipment is needed under normal conditions.		
EYE PROTECTION:	Safety glasses.	No protective equipment is needed under normal		
$\Theta$		conditions.		
BODY PROTECTION:	Not required under normal conditions of use. Protection may be required for spills.	No protective equipment is needed under normal conditions.
