- 19% solids
- Does not contain ammonia, alkylphenol ethoxylate surfactants or dibutyl phthalate
- High gloss
- Coverage 2000-2500 sq ft per gallon
- Green Seal Certified's environmental standard for industrial and industrial cleaners.

Description:

PRO EARTH FLOOR SHINE is an environmentally preferable zinc-free floor finish that produces a durable finish with an outstanding rich gloss, and has superb leveling and black heel mark resistance. This product is very popular in the health care industry because of its low odor and ease of use in occupied areas. It is suitable to use for both conventional and high-speed buffing programs. Must use PRO EARTH FLOOR STRIP to remove PRO EARTH FLOOR SHINE. Conventional strippers will not work.

Applications:

- Office Buildings
- Commercial Facilities
- Schools
- Hospitals
- Daycares
- Grocery Stores

Specific Gravity:	1.04
Water Solubility:	Emulsion
Vapor Density:	Not available
Flash Point:	Not available
VOC:	Not available
Viscosity:	Not available
Storage:	Store in a dry place. Store in a closed container.

Transport Information:

Proper Shipping Name:	Not regulated.
UN Number:	Not regulated.
Class:	Nonhazardous.

DOT Placard:

Not Regulated.

Directions:

Only apply PRO EARTH FLOOR SHINE to a completely clean, dry floor surface. Apply medium coats with a clean mop or microfiber applicator. Do not dilute. Allow 20–30 minutes drying time between coats. Temperature, ventilation and humidity will affect drying time. To bring out the shine, buffing the floor is necessary.

Maintenance: Dust mop or microfiber sweep floor surface. Clean the floor with a damp mop or autoscrubber using PRO EARTH NEUTRAL FLOOR CLEANER according to label directions. To increase gloss, spray, buff or burnish using dust control systems.

Pictograms:

None.
