

PRO TOOLS NF AIR DUSTER #1498

Aerosol Duster for Removing Dust from Delicate Surfaces

Features:

- Pinpoint blasting spray
- Completely plastic safe
- High purity – no residue
- Nonflammable

Description:

PRO TOOLS NF AIR DUSTER utilizes the highest purity, nonflammable material to create a non-residue formula that is completely plastic safe and contains no ozone depleters. Its blasting precision spray quickly and easily removes dirt and dust from delicate surfaces, including all electronic or electrical devices from computers and office equipment to industrial machinery and manufacturing equipment.

Applications:

- Circuit Boards
- Print Heads
- Contacts
- Televisions
- Microcomponents
- Monitors
- CD-ROM Devices
- Computers

Product Characteristics:

Appearance:	Clear spray/mist
Odor:	Ethereal
Boiling Point:	-26.5°C
Melting/Freezing Point:	-101°C / -103°C
Vapor Pressure:	592 kPa absolute @ 70°F
Solubility (water):	1930 mg/l
Relative Density:	1.2
Flash Point:	Not applicable
VOC Content (wt %):	100
pH:	Not applicable
Vapor Density:	0.27 lb/ft ³
Storage:	Protect from sunlight. Do not expose to temperatures exceeding 50°C/122°F.

Transport Information:

UN Number:	1950
Proper Shipping Name:	Aerosols, nonflammable
Class:	2.2
Packing Group:	-

Directions:

Be sure to hold can near upright to prevent accidental freezing. If in a confined space, be sure to angle blast to open area so deposits will be removed and not just moved. **WIDE AREA CLEANING:** Hold can about 6-8 inches from surface to be cleaned. Aim sprayer at desired area and squeeze trigger using a sweeping side to side motion. **PRECISION CLEANING:** Remove attached extension tube and insert firmly into the nozzle opening. Hold can about 2-3 inches from surface to be cleaned. Aim sprayer and gently squeeze trigger until clean. *Do not use on camera mirrors.*
