

POWER CLEAN

Parts Cleaning

CONCENTRATE

Concentrate Dilutes 1:19 with water

Pro Chem's Clean Parts Cleaning Solution was developed to compete with hydrocarbon solvents. POWER CLEAN is successfully used to replace harmful solvent parts cleaning solutions in most parts cleaning applications. This revolutionary new aqueous-based parts cleaning solution was designed for use in metal parts cleaning equipment, as well as plastic. This formulation allows owners of both metal and plastic parts cleaning equipment to convert to a safe and efficient means to clean dirt, mildew, algae, oil, grease, and other soils from the surface of all metals, plastics, and other materials. POWER CLEAN parts cleaning solution is water based, surface active cleaners, which cleans by dilution of soils. Although the use of POWER CLEAN in metal parts cleaning equipment may cause the paint on the sinks' inner surface to release, the unique rust inhibiting quality of POWER CLEAN will not allow the bare metal surfaces to rust. Aqueous-based parts cleaning solutions are commonly heated to enhance cleaning ability. POWER CLEAN cleans about 25% better when heated, therefore, it is recommended that an over-the-side fluid heater be incorporated into the cleaning system.

DIRECTIONS FOR USE:

POWER CLEAN is a 100% chemical concentrate and should be diluted to a 5% solution for parts cleaning (19 to 1). Directions for periodic (4 to 6 weeks) replenishment for evaporation and drag-outs are as follows:

1. Place 5 gallons of clean water in parts washer reservoir.
2. Pour one quart of POWER CLEAN Concentrate into parts washer reservoir.
3. Place one 1 ounce water soluble pack of Pro Chem microbes in reservoir.

This product is a proprietary blend of surfactants. The product contains no hazardous ingredients per OSHA 29 CFR 1910.1000 & OSHA 29 CFR 1910.1200.

EMERGENCY OVERVIEW: This biodegradable pH-neutral blend of surfactants (including personal use domestic soaps), some individuals may experience slight topical allergic reactions to surfactants.

Parts Cleaning

CONCENTRATE

Concentrate Dilutes 1:19 with water

WARNING:

KEEP OUT OF REACH OF CHILDREN.
Contents should be mixed with 5 gallons of water.
See back panel for additional precautionary statements.

NET CONTENTS: 1 QUART (946 ML)

WARNING

HAZARD STATEMENTS: CAUSES SERIOUS EYE IRRITATION.
CAUSES SKIN IRRITATION

PRECAUTIONARY STATEMENTS: PREVENTION: Wear protective gloves/ eye protection/ face protection. Wash hands and any affected exposed skin/ clothing thoroughly after handling.

FIRST AID

RESPONSE: IF IN EYES: Rinse cautiously for several minutes. Remove contact lenses if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/ attention. IF ON SKIN: Wash with plenty of soap and water. Take off contaminated clothing and wash before reuse. If skin irritation occurs: Get medical advice/ attention.

SPECIFIC FIRST AID MEASURES

General: Never give anything by mouth to an unconscious person. If you feel unwell, seek medical advice (show the label if possible). Inhalation: Remove victim to fresh air and keep at rest in a position comfortable for breathing. If not breathing, if breathing is irregular, or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Get medical attention if adverse health effects persist or are severe. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband. Skin Contact: Wash skin thoroughly with soap and water or use recognized skin cleanser. Continue to rinse for at least 10 minutes. Remove contaminated clothing and shoes. Get medical attention if symptoms occur. Wash clothing before reuse. Clean shoes thoroughly before reuse. Eye Contact: Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Continue to rinse for at least 15 minutes. Get medical attention. Ingestion: Get medical attention immediately. Call a poison center or physician. Wash out mouth with water. Remove dentures, if any. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Stop if the exposed person feels sick, as vomiting may be dangerous. Do not induce vomiting. If vomiting occurs, the head should be kept low so that vomit does not enter the lungs. Never give anything by mouth to an unconscious person. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband.

DISPOSAL: Dispose of contents/container in accordance with all local/ regional/ national/ international regulations.

INGREDIENTS (C.A.S. #): Alcohols, C9-11, ethoxylated (68439-46-3), 2-butoxyethanol, ethylene glycol monobutyl ether butyl cellosolve (111-76-2)
