

# SPRAYERS

## PUMP UP SPRAYER #880 #4179 Industrial Grade Sprayer with 2-Quart Capacity

### Features:

- Wide mouth for easy filling
- Adjustable nozzle for straight stream or fine mist
- Chemical-resistance O-rings
- 2 quart capacity (64 oz.)
- Comfort thumb grip minimizes fatigue
- Ideal for use with herbicides, degreasers, tire and wheel cleaners, sanitizers and pesticides

## POWER SPRAYER #4103 50-Oz. Pump Sprayer with Adjustable Nozzle

### Features:

- Great for spraying weed killers, disinfectants and pesticides
- Adjustable nozzle can spray as a mist, jet, foam or fan
- 50 oz. capacity
- Comfortable grip and thumb trigger
- Translucent tank for easy view of product level

## WATER WAGON #4781

### Pump Up Sprayer

### Features:

- Translucent 3 gallon UV-resistant tank with extra-long 8 ft chemical resistant hose and 24" plastic adjustable spray wand
- Tank is long lasting and resists corrosion
- Easy-to-fill funnel top
- Ergonomically shaped shut-off valve with lock-on/lock-off feature
- Automatic pressure relief valve to release extra pressure
- Large piston pump for quick pressurization
- Over-sized spray, wide tread wheels for stability
- Large pump handle with built-in wand retainer
- Adjustable aluminum handle with soft grip sleeve

## SURE SHOT #4269 Refillable Steel Sprayer

### Features:

- Metal construction
- Brass nozzles
- Refillable, reusable
- 32 oz. liquid capacity
- Extra versatile
- Pressurized by free air
- Made in the USA
- Sensible alternative to aerosols
- Corrosion resistant working parts
- Steel canister comes with chrome plated exterior

## BAK PAK SPRAYER PROFESSIONAL #4789

### Pump Up Sprayers

#### Features:

- Viton® seals
- 70 PSI sealed diaphragm style pump
- 20" brass wand with adjustable brass cone pattern nozzle
- 47" industrial spray hose
- Locking shut-off valve with inline filter
- Solid steel pump handle
- Includes three plastic flat fan nozzles
- 4 gallon/15 liter capacity
- Translucent poly tank for easy view of liquid level

---

## SOLO SPRAYERS #4155/4152

### Backpack Sprayer – 4-GL Capacity #415501

#### Features:

- 4-gallon capacity
- Viton® seals and O-rings for use with acidic liquids and solutions that contain oil or harsh solvents
- Durable, high-density polyethylene (HDPE) tank is resistant against UV rays
- Corrosion-resistant, transparent tank and plastic parts
- Heavy-duty tank is extremely durable yet light with visible fill level markings
- Ergonomically-shaped operating components
- Efficient, heavy-duty pumps for quick and effortless pressurization
- Large opening for easy filling and cleaning
- Carrying handle with integrated spray wand retainer
- Strong steel base frame
- Shut-off valve with lock-on/lock-off feature
- 20" polypropylene wand allows extended reach
- High quality, chemical-resistant flat spray nozzle
- Smooth, effective piston pump with 4-stage pressure regulator
- Wide, comfortable and padded carrying straps with quick adjustment tab

### Hand-Held Pump Up – 4-GL Capacity #415501

#### Features:

- Durable, high-density polyethylene (HDPE) tank is resistant against UV-Rays and corrosion-resistant
- Viton® seals and O-rings for use with acidic liquids and solutions that contain oil or harsh solvents
- Heavy-duty HDPE tank is extremely durable yet light
- Easily visible fill level markings
- Ergonomically-shaped operating components
- Efficient, heavy-duty pumps for quick and effortless pressurization
- Corrosion-resistant plastic parts
- Large, efficient piston pump attains operating pressure with fewer pump strokes
- Large opening for easy filling and cleaning
- Large pump handle with integrated spray wand holder
- Automatic pressure relief valve can be manually operated to release pressure
- High-quality, chemical-resistant flat spray nozzle
- Practical, long and wide carrying strap
- Ergonomically-shaped shut-off valve and strong nylon-reinforced hose
