

STEEL SHINE #1891

Water Based Stainless Steel Cleaner

Features:

- VOC compliant
- Better penetrating ability resulting in better cleaning
- Excellent shine
- Does not leave prints
- Will not scratch surfaces
- Leaves protective gloss coat
- Clinging foam formula
- Food Processing Acceptability: C1

Description:

STEEL SHINE, a water-based stainless steel cleaner, has a clinging foam formula that instantly loosens and removes soils from most metal surfaces, leaving a glossy protective coating behind. Because it is an oil based emulsion, the solvents have been removed and replaced with water. Not only does this eliminate the oiliness and high flammability found in solvent based stainless steel cleaners, it also lowers the VOC's making it more environmentally friendly. It contains no abrasives so it will not scratch the surface. Use of a highly refined oil for the emulsion, makes it the perfect solution for food preparation areas that need a product that cleans and leaves a protective shine. Designed to use on stainless steel, chrome, aluminum, brass, copper and most other metal surfaces, it is also safe on solid Formica, granite and marble.

Note: Product does not remove existing tarnish. If tarnished, use Metal Brite #220001.

Applications:

- Stainless steel
- Chrome
- Aluminum
- Brass
- Copper
- Metal Surfaces

Product Characteristics:

Appearance:	Creamy emulsion
Odor:	Lemon
Boiling Point:	Not available
Vapor Pressure:	Not available
Specific Gravity:	0.98
Solubility (water):	70%
Relative Density:	0.9
Flash Point:	None (liquid portion)
VOC (%):	15
pH:	7-9
Melting/Freezing Point:	Not available
Storage:	Protect from sunlight. Do not expose to temperatures exceeding 50°C/122°F. Store in a well-ventilated place. Store locked up.
Transport Information:	
Proper Shipping Name:	Not available
UN Number:	UN1950
Class:	2.1
Packing Group:	Not available

Directions:

Shake well before using. Spray evenly over the surface to be cleaned from a distance of 8-12 inches. Wipe area clean. For heavily soiled areas a second application may be necessary.
