

STICK IT #1958

Aerosol Heavy-Duty Adhesive Spray

Features:

- Low soak in
- Instant tack
- Contains no chlorinated solvents or ozone-depleting ingredients
- Transparent and flexible
- Temporary or permanent
- Complies with 21 CFR 175.105 for food packing adhesive

Description:

STICK IT is the highest performance wide web spray adhesive. It is excellent for both temporary and permanent bonding. Spraying one side will create a temporary bond whereas spraying both surfaces will create a permanent bond. This product is very effective on multiple surfaces, including uneven and porous surfaces. STICK IT remains flexible and transparent once it dries.

Applications:

- Plastics
- Wallpaper
- Masonry
- Metal
- Paper
- Carpet
- Cardboard
- Leather
- Painted Surfaces
- Particle Board
- Wood
- Cloth
- Foam
- Drywall
- Fiberglass

Product Characteristics:

Physical State:	Liquid.
Form:	Spray Aerosol.
Odor:	No data available.
Vapor Pressure:	3,585 - 4,964 hPa (20°C)
Explosive Limit – lower (%):	Estimated 2.5% (V)
Explosive Limit – upper (%):	Estimated 10.2% (V)
pH:	No data available.
Flash Point:	-104.44°C
Storage:	Protect from sunlight. Do not expose to temperatures exceeding 50°C/122°F. Store locked up. Store in a well-ventilated place. Keep container tightly closed.
Transport Information:	
Proper Shipping Name:	Aerosols, flammable
UN Number:	UN1950
Class:	2.1
Packing Group:	II

Directions:

Always shake well before using. Never aim valve at face. Hold can upright and apply adhesive in a side-to-side motion 8 to 12 inches from surface. For temporary bonds, spray surface, allow to become tacky, then bond surfaces together. For permanent bonds, liberally spray both the surface and material, allow to become tacky, then bond the surfaces together.

Not recommended for unsupported vinyl fabric. Certain plastic and elastomeric substrates can exhibit bond failure due to plasticizer migration. Combinations of high temperature and humidity can promote bond failure.
