

UREABOR #2810

Granular, Non-Selective Residual Weed and Grass Killer

Features:

- One application is good for an entire year
- Ready to use
- Non-corrosive
- EPA registered
- Economical

Active Ingredients:

- Sodium Metaborate: 49.0%
- Sodium Chlorate: 30.0%
- Bromacil: 1.5%

Description:

UREABOR is designed for non-selective kill of weeds and grasses with a single treatment. It is specially designed for effective control of perennial grasses such as Johnson grass, Quack grass, Bermuda grass, Dallis grass, and quack grass on industrial sites and non-cropped land. UREABOR has a wide range of efficiency in controlling general vegetation. UREABOR is especially effective in eliminating established vegetation. UREABOR provides quick knockdown of weeds and grasses-the bromacil assures long residual control. UREABOR provides control of vegetation for a season or longer. It is packaged in 50-pound, high denier plastic bags.

Effective Against:

- Sunflower
- Crabgrass
- Dallis Grass
- Kochia
- Downy Brome
- Quack Grass
- Russian Thistle
- Johnson Grass
- Canada Thistle
- Pigweed
- Bermuda Grass
- Bindweed

For Use By:

- Bus Garages
- Hospitals
- Nursing Homes
- Utility Companies
- Factories
- Hotels/Motels
- Correctional Facilities
- Sewage Plants
- Fleet Operations
- Industrial Plants
- Railroads
- Manufacturing Plants
- Freight Carriers
- Military Facilities
- Warehouses
- DOT's

Product Characteristics:

Appearance:	White/gray pellets
Odor:	No data available
Flammability:	No data available
Vapor Pressure:	Negligible
Flammability (solid, gas)	Not flammable
Solubility (water):	>2 lbs/gal @ 20°C (68°F)
pH:	No data available
Flash Point:	No data available
Specific Gravity:	No data available
Decomposition Temp:	No data available
Storage:	Keep out of the reach of children. Keep container tightly closed. Store in a dry, cool area. Do not store on wood floors.
Transport Information:	
UN Number:	Not regulated for transport
Proper Shipping Name:	Not regulated for transport
Class:	Not regulated for transport
Packing Group:	Not regulated for transport

Directions:

For all uses, uniform application is essential. Ureabor becomes effective in the soil followed by rainfall or irrigation. Ready to use. Apply with a hand-operated spreader, such as a conventional cyclone type spreader or a power spreader for larger areas.
