

WASH-N-WAX #2270

Automotive Wash and Wax Concentrate

Features:

- Highly concentrated: Dilutes 1:42 with water
- Created a water repellent surface
- Completely water soluble, non-streaking
- Will not clog dispensing equipment
- Biodegradable, solvent free, non-caustic, phosphate free

Description:

WASH-N-WAX is a high foaming blend of detergents and a proprietary additive, W-300, which imparts a monomolecular film to give a high luster. It helps to repel dust and inhibit rust. This product is non-streaking and will not harm the metals, coatings, rubber and glass used in vehicles of all types. WASH-N-WAX deposits a wax-like film that causes vehicles to dry faster, thus making the job easier while cutting costly labor time.

Applications:

- Cars
- Trucks
- Buses
- Car Wash Machines

Product Characteristics:

Appearance:	Thick yellow liquid
Odor:	Bland
Boiling Point:	212°F
Vapor Pressure:	Not available
Specific Gravity:	1.01
Water Solubility:	Complete
Vapor Density:	Not available
Flash Point:	Not available
pH:	8.0-9.0
VOC:	Not available
Boiling Range:	Not available
Viscosity:	Not available
Storage:	Store in a dry place. Store in a closed container. Store in a well ventilated place. Keep cool.

Transport Information:

Proper Shipping Name:	Not available
UN Number:	Not available
Class:	Non-hazardous
Packing Group:	Not available

DOT Placard:

Not regulated.

Directions:

For Car Wash Machines:

WASH-N-WAX can be used in car washing machines by following the dispensing instructions recommended by the machine manufacturer.

For Hand Washing:

Remove loose dirt, dust and grime by pre-rinsing car. Use a solution of 3 ounces concentrate to one gallon of water. Wash with cloth or brush. Excessively soiled areas may have to be rubbed until clean. Rinse thoroughly with clean water. Do not let solution dry on car.

Do not use in direct sunlight. Rinse immediately after washing.
