

XL 866 #1719

Aerosol Chain and Cable Lubricant

Features:

- Fortified with Moly and PTFE
- Contains no chlorinated solvents or ozone depleters
- Penetrates for fast set up
- Resists throw off
- Special valve for precise control and elimination of overspray
- Water and acid resistant
- Lubricates and reduces friction
- Ideal for chains, cables and moving assemblies
- Food Processing Acceptability: H2

Description:

XL 866 is a mixture of penetrants, anti-oxidants, oils and greases for use on chains, cables and wire ropes. Fortified with both molybdenum disulfide and PTFE, the formula provides superior lubricity, protection, longevity and temperature resistance. Penetrates deep inside the core of wire rope to provide superior lubrication at the point of greatest stress. Using this product prevents metal-to-metal contact and reduces friction, heat, stress and wear during operation. May be used under widely varying climatic conditions and will not break down under heat, stress and prolonged use.

Applications:

- Chains & Cables
- Drive Chains
- Roller Assemblies
- Wire Ropes
- Hoist Chains
- Conveyor Chains
- Chain Saws
- Drag Chains
- Sprockets

For Use By:

- Factories
- Industrial Plants
- Mining Operations
- Bottling Companies
- Food Processing Plants
- Manufacturing Plants
- Hotels/Motels
- Breweries
- Industrial Rendering
- Military Facilities
- Steel Mills
- Canneries

Product Characteristics:

Appearance:	Aerosol containing a liquefied gas
Color:	Black, green
Odor:	Solvent like
VOC:	26.5
Vapor Pressure:	No data available
Solubility (water):	Insoluble
Relative Vapor Density:	No data available
Flash Point:	No data available
Heat of Combustion:	46.08 kJ/g
pH:	Not applicable
Storage:	Protect from sunlight. Do not expose to temperatures exceeding 50°C/122°F.
Transport Information:	
UN Number	UN1950
Proper Shipping Name:	Aerosols, flammable, LTD QTY
Class:	2.1
Packing Group:	Not regulated

Directions:

SHAKE WELL BEFORE USING. Hold can 6-10 inches from surface to be lubricated and spray liberally.
