## Heavy Duty Liquid Hand and Body Cleaner

Product Information Sheet

### Features

- Heavy-duty hand cleaner for removing grease, grime, gum, oil, and resins
- May be used full strength or diluted
- Pleasant citrus fragrance
- Protects sensitive skin
- Prevents chapping and dermatitis
- Non-abrasive
- Elevated viscosity
- Food Processing Acceptability: E1

### Description

This mechanic-friendly hand cleaner is ideal for use where rinsing is available and heavy duty removal is necessary. Powerful "orange oil" solvents ensure the rapid emulsification and grease cutting properties necessary to remove heavy soils. Its smooth emollient system prevents drying and chapping of the skin, yet removes the toughest of soils.

### Applications

- Car mechanic shops
- Gas stations
- Warehouses
- Offices
- Restaurants
- Printing jobs

### Directions

**Full Strength Application:** Apply cleaner liberally to skin and agitate thoroughly to build up a rich, smooth lather. Continue vigorous rubbing until soil is loosened and dissolved. Rinse clean with running water. Always dry thoroughly to help prevent chapping.

Due to its high activity, this cleaner can be diluted.

**For Economy, For Light Shop Oil:** Dilute 1 part cleaner with 4 parts water (24 oz/gal).

**For Soap Dispensers:** Dilute 1 part cleaner with 5 parts water (21 oz/gal). For best results, Pro Chem's Liquid Soap Dispenser #425901 is recommended.

**All-Body Cleaner/Shampoo:** Dilute 1 part cleaner with 7 parts water (16 oz/gal).

### Product Specifications

Appearance	Clear amber liquid
Fragrance	Citrus
pH	9.5-10.0
Specific Gravity	1.01
Boiling/Condensation Point	~212°F
Melting/Freezing Point	~32°F
Solubility in Water	Complete at 25°C
Flash Point (Method Used)	N/A (Tag Open Cup)
Storage	Store in a cool, well-ventilated area out of the reach of children. Keep from freezing.
Transportation Information	
Class #	55
Proper Shipping Name	Consumer Commodity
