- Environmentally safe
- Powerful neutralizing fragrances eliminate odors
- "Dry spray" formulation
- 3000 metered spray container freshens in area up to 6,000 cubic feet for up to 168 days

Description

The ECO MIST automatic pump dispenser system is an environmentally friendly alternative to aerosol spray systems. The ECO MIST pump system utilizes a new pump spray that delivers strong deodorizing action with a non-aerosol formula. ECO MIST pump utilizes no dangerous propellants, so they are not explosive, and of course they do not contain ozone-depleting CFC's. An LCD display provides a visual indication of battery life and time remaining until next refill is needed. Spray interval and number of days per week the fragrance is dispersed are adjustable.

Applications
