

Super Wax Off

#2113

Floor Stripper to Remove Floor Finish and Wax

Product Information Sheet

Features

- Removes wax build-up from all types of finishes, including acrylic and detergent-resistant
- Highly aggressive and fast acting
- Economical and easy to use
- Formulated for use with or without scrubbing machines

Description

SUPER WAX OFF is a specially formulated concentrate with a unique "chemical key" that unlocks the molecular structure of the old finish, enabling the wetting and penetrating agents to dissolve and float away all remnants of entrapped soil, stains and waxes. It is completely soluble in hot or cold water and is non-damaging to all types of composition floors. After rinsing with clear water, floors are left stripped, clean and ready for a fresh coat of a Pro Chem seal or finish.

Applications

- Schools
- Gas stations
- Department stores
- Offices
- Hospitals
- Grocery stores
- Hotels

Directions

Dilute 1 part SUPER WAX OFF to 4 parts water. Apply the diluted solution directly to the floor scrubbing vigorously with a mop or stripping pad. Allow to stand 5 to 10 minutes or until wax has been dissolved. Remove dissolved wax from floor with a mop, wet vac or automatic scrubber. Rinse floor twice thoroughly with clean water. Let floor dry thoroughly before applying new finish or sealer.

Product Characteristics

Appearance	Clear, light amber liquid
Odor	Sassafras
Solubility in Water	Complete
Vapor Pressure (mmHg)	N/E
Vapor Density (Air=1)	N/E
Specific Gravity (H2O=1)	1.09
pH Concentrate	13.5
Boiling Point	>212°F
Total alkalinity	12.0
Flash Point	No Flash (standard methods)
Storage	Store in a cool, dry area out of the reach of children. Keep closed when not in use.
Transport information	
Class #	55
Proper Shipping name	Corrosive liquid, Basic, Inorganic NOS (contains potassium hydroxide), 8, UN 3266, PG II, HAZARD SHIPPING LABEL
NMFC	33440

Health	3
Flammability	1
Reactivity	1
