

GONE #2961

Rust Remover

Features:

- Inhibits flash rusting for weeks
- Easy soak formula
- Biodegradable
- Neutral pH
- No VOC's
- Nontoxic
- Noncorrosive

Description:

GONE is a safe, effective way to remove rust from metal without scrubbing. This unique formula will not harm delicate surfaces including rubber, plastic, vinyl, PVC, aluminum, copper and brass. All you have to do is clean the object, soak it in GONE, and the rust will be gone. The pH neutral formula is non-toxic, non-flammable, and biodegradable. Anything treated with GONE can be towel or air dried and will resist flash rusting for weeks.

Applications:

- Rust Removal
- Parts Prepping
- Preventing Flash Rusting

Areas of Use:

- Auto Repair Shops
- DOT
- Bus Garages
- Utilities

Product Characteristics:

Appearance:	Clear, colorless liquid
Odor:	Mild odor
Vapor Pressure:	No data available
Specific Gravity:	1.07 g/ml
Solubility (water):	Soluble
Flash Point:	>200°F
VOC:	0%
pH:	7.4
Storage:	Keep container closed when not in use. Store in a cool area. Store in a dry area.
Transport Information:	
Proper Shipping Name:	Not regulated for transport.
UN Number:	Not regulated for transport.
Class:	Not regulated for transport.

Directions:

Surface Preparation: Remove loose rust deposits and clean surface thoroughly to remove dirt, oil and grease.

Fully submerge parts to be cleaned in GONE and check periodically. Time to remove rust can vary depending on the severity of deposits and can range from hours to overnight. Once rust is removed, rinse object in water and towel dry or air dry.

GONE can be reused until the solution is no longer active at removing rust.
