

SOLU-CLEAN PORTABLE PARTS WASHER

The Solu-Clean Portable Parts Washer (#4633) boasts the pump flow of 4 gallons per minute and only weights 11 pounds when empty. The Solu-Clean Parts Washer can be used with the following Pro Chem products: Futron, Power Clean Concentrate, Degrease It, and Green Clean.

Product Directions

- Fill through the drain plug on the end of the unit. Always disconnect the power supply when filling or emptying.
- Connect the power cord into a standard 110 outlet - with ground. Circulation and brush are activated when machine is switched on.
- Do not operate dry, or damage to the pump may occur.
- To move the Solu-Clean Portable Parts Washer, ensure drain plug is in place. Turn off unit and unplug power cord. Lift up the unit via hand grips on each side. Keep flat during transport. Do not move unit while in operation.
