## Concentrated High-Speed Burnishing Restorer

Product Information Sheet

### Features

- For use on finished resilient floors
- Restores wet look without having to re-wax
- Extends the life of floor finish
- Contains a combination of cleaning agents and polymers
- Quickly and easily removes deep scuffs and scratches
- One-step cleaning and restoring

### Description

DAZZLE is a high speed, dilutable finish restorer that prolongs the life of a floor finish and restores that "wet look." Formulated with solvents that soften the finish and facilitate the abrasive action of the pad. DAZZLE can also be used as a one step floor cleaner/restorer when using an Automatic Scrubber.

### Applications

- Dirt
- Oil
- Grease

### Directions

**Mop-on/Burnish Restoring:**  
Dilute one (1) part Dazzle to three (3) parts water. Mop one thin coat of diluted product directly onto floor. Can also be diluted into a quart bottle and sprayed on the floor. Allow to dry completely and burnish with ultra high speed buffer.

**One Step Cleaning/Restoring using Automatic Scrubber:**  
Dilute 2-4 ounces Dazzle to one gallon water. Use soft poly brush or the least aggressive burnishing pad, such as white or champagne.

### Product Characteristics

Appearance	Light blue emulsion
Odor	Fresh
Evaporation Rate (Butyl Acetate=1)	N/E
Solubility in Water	Complete
Vapor Pressure (mmHg)	N/E
Vapor Density (AIR=1)	N/E
Specific Gravity (H2O=1)	1.01
pH Concentrate	8.0
Boiling Point	>212°F
Flash Point	No flash (standard methods)
Polymer Solids	10.5
Storage	Store in a cool, dry area out of the reach of children. Keep closed when not in use.
