SPECIAL PROTECTIVE EQUIPMENT FOR FIRE FIGHTERS:

Wear protective pressure self-contained breathing apparatus (SCBA) and full turnout gear. Care should always be exercised in dust/mist areas.

6. Accidental Release Measures

EMERGENCY PROCEDURE:

Flammable/combustible material. ELIMINATE all ignition sources (no smoking, flares, sparks, or flames in immediate area). Stay upwind; keep out of low areas. Immediately turn off or isolate any source of ignition. Keep unnecessary people away; isolate hazard area and deny entry. Do not touch or walk through spilled material. Clean up immediately. Use absorbent sweeping compound to soak up material and put into suitable container for proper disposal.

RECOMMENDED EQUIPMENT:

Positive pressure, full-face piece self-contained breathing apparatus (SCBA), or positive pressure supplied air respirator with escape SCBA (NIOSH approved).

PERSONAL PRECAUTIONS:

ELIMINATE all ignition sources (no smoking, flares, sparks, or flames in immediate area). Use explosion-proof equipment. Avoid breathing vapor. Avoid contact with skin, eye or clothing. Do not touch damaged containers or spilled materials unless wearing appropriate protective clothing.

ENVIRONMENTĂL PRECAUTIONS:

Stop spill/release if it can be done safely. Prevent spilled material from entering sewers, storm drains, other unauthorized drainage systems and natural waterways by using sand, earth, or other appropriate barriers.

7. Handling and Storage

GENERAL: For industrial and institutional use only. For use by trained personnel only. Keep away from children. Wash hands after use. Do not get in eyes, on skin or on clothing. Do not breathe vapors or mists. Use good personal hygiene practices. Eating, drinking and smoking in work areas is prohibited. Remove contaminated clothing and protective equipment before entering eating areas. Eyewash stations and showers should be available in areas where this material is used and stored.

VENTILATION REQUIREMENTS:

Use only with adequate ventilation to control air contaminants to their exposure limits. The use of local ventilation is recommended to control emissions near the source.

STORAGE ROOM REQUIREMENTS:

Keep container(s) tightly closed and properly labeled. Store in cool, dry, well-ventilated areas away from heat, direct sunlight and incompatibilities. Store in approved containers and protect against physical damage. Keep containers securely sealed when not in use. Indoor storage should meet OSHA standards and appropriate fire codes. Containers that have been opened must be carefully resealed to prevent leakage. Empty container retain residue and may be dangerous. Do not cut, drill, grind, weld, or perform similar operations on or near containers. Do not pressurize containers to empty them. Ground all structures, transfer containers and equipment to conform to the national electrical code. Use procedures that prevent static electrical sparks. Static electricity may accumulate and create a fire hazard. Store at temperatures below 120°F.

8. Exposure Controls / Personal Protection

PERSONAL PROTECTIVE EQUIPMENT:

EYE PROTECTION: Chemical goggles, safety glasses with side shields or vented, splash-proof goggles. Contact lenses may absorb irritants. Particles may adhere to lenses and cause corneal damage.

SKIN PROTECTION: Wear gloves, long sleeved shirt, long pants and other protective clothing as required to minimize skin contact. Use of gloves approved to relevant standards made from the following materials may provide suitable chemical protection: PVC, neoprene or nitrile rubber gloves. Suitability and durability of a glove is dependent on usage, e.g. frequency and duration of contact, chemical resistance of glove material, glove thickness, dexterity. Always seek advice from glove suppliers. Contaminated gloves should be replaced. Chemical-resistant clothing is recommended to avoid prolonged contact. Avoid unnecessary skin contact.

RESPIRATORY PROTECTION: If engineering controls do not maintain airborne concentrations to a level which is adequate to protect worker, a respiratory protection program that meets or is equivalent to OSHA 29 CFR 1910.134 and ANSI Z88.2 should be followed. Check with respiratory protective equipment suppliers. Where air-filtering respirators are suitable, select an appropriate combination of mask and filter. Select a filter suitable for combined particulate/organic gases and vapors. When spraying more than one half can continuously or more than one can consecutively, use NIOSH approved respirator.

distillates, s	solvent-dev	vaxed										
heavy para	ffinic											
Propane		See	Appendix F: I	Minimal Oxygen								
		Con	tent									

9. Physical & Chemical Properties							
Appearance:	Grease.	Flammability:	Flashpoint below 73°F				
Odor:	Mild.	Explosive Limit – lower (%):	Not available.				
Odor Threshold:	Not available.	Explosive Limit – upper (%):	Not available.				
pH:	Not available.	Evaporation Rate:	Slower than ether.				
Melting Point:	Not available.	Vapor Density:	Slower than ether.				
Freezing Point:	Not available.	Solubility (water):	Not soluble.				
Viscosity:	Not available.	Auto-Ignition Temperature:	Not available.				
Density:	6.48882 lb/gal	Decomposition Temperature:	Not available.				
% VOC:	25.00000%	Flash Point Symbol:	Not available.				
VOC Actual:	194.38880 g/l	Density VOC:	1.62220 lb/gal				
VOC Regulatory:	194.38880 g/l	VOC Actual:	1.62220 lb/gal				
VOC Regulatory:	1.62220 lb/gal	Low Boiling Point:	Not available.				
Flash Point:	Not available.	High Boiling Point:	Not available.				
10. Stability & Reactivity Informati	on						
STABILITY:							
Stable.							
INCOMPATIBLE MATERIALS:							
None known. CONDITIONS TO AVOID:							
High temperatures.							
HAZARDOUS REACTIONS/POLYN	IERIZATION:						
Will not occur.	-						
HAZARDOUS DECOMPOSITION P	RODUCTS:						
In fire, will decompose to o	carbon dioxide, carbon monoxide.						
11. Toxicological Information							
SKIN CORROSION/IRRITATION:	lefetting of allin						
Overexposure will cause of SERIOUS EYE DAMAGE/IRRITATI							
	edness and burning sensation.						
RESPIRATORY OR SKIN SENSITI							
No data available.							
GERM CELL MUTAGENICITY:							
No data available.							
CARCINOGENICITY:							
No data available. REPRODUCTIVE TOXICITY:							
No data available.							
STOT - single exposure:							
No data available.							
STOT - repeated exposure:							
No data available.							
ASPIRATION TOXICITY:							
No data available.							
ACUTE TOXICITY:	posure include irritation of respirat	onvtract headache dizziness nause	ea, and loss of coordination. Extreme				
	n unconsciousness and possibly de

		ure); cited as 680 mg/L (2-hour expos					
	LC50 (rat): 276000 ppm (658000 mg/m3) (4-hour exposure); cited as 658 mg/L (4- hour exposure) (9)						
0064742-65-0 MINERAL OIL, PETROLEUM DISTILLATES, SOLVENT-DEWAXED HEAVY PARAFFINIC							
LD50 (Rodent - rat, Oral) : >5000 mg/kg, Toxic effects : Details of toxic effects not reported other than lethal dose value.							
LD50 (Rodent - rabbit, Administration onto the skin) : 5000 mg/kg, Toxic effects : Details of toxic effects not reported other than lethal dose value.							
12. Ecological Information							
TOXICITY:							
No data available.							
PERSISTENCE AND DEGRADABILITY:							
No data available. BIOACCUMULATIVE POTENTIAL:							
No data available.							
MOBILITY IN SOIL:							
No data available.							
OTHER ADVERSE EFFECTS:							
No data available.							
BIOACCUMULATIVE POTENTIAL:			AFFINIC: Contains constituents with the

potential to bioaccumulate	•						

0064742-65-0 MINERAL OIL, PETROLEUM DISTILLATES, SOLVENT-DEWAXED HEAVY PARAFFINIC: Liquid under most environmental conditions. Floats on water. If it enters soil, it will adsorb to soil particles and will not be mobile.

13. Disposal Consideration

Under RCRA, it is the responsibility of the user of the product, to determine a the time of disposal whether the product meets RCRA criteria for hazardous waste. Waste management should be in full compliance with federal, state, and local laws.

Empty containers retain product residue which may exhibit hazards of material, therefore do not pressurize, cut, glaze, weld or use for any other purposes. Return drums to reclamation centers for proper cleaning and reuse.

14. Transportation Information

U.S. DOT Information:

Consumer Commodity, ORM-D

IMDG Information: Consumer Commodity, ORM-D IATA Information:

Consumer Commodity, ORM-D

15. Regulatory Information

Chemical Name	CAS #	% by Weight	Regulation List
Mineral Oil, petroleum distillates, solvent-dewaxed heavy paraffinic	0064742-65-0	50-85	SARA 312, TSCA, OSHA
Propane	0000074-98-6	9-24	SARA 312, VOC, TSCA, ACGIH, OSHA
Butane	0000106-97-8	4-11	SARA 312, VOC, TSCA, ACGIH

16. Other Information

Glossary:

* There are points of differences between OSHA GHS and UN GHS. In 90% of the categories, they can be used interchangeably, but for the Skin Corrosion/Irritant Category and the Specific Target Organ Toxicity (Single and Repeated Exposure) Categories. In these cases, our system will say UN GHS.

ACGIĤ- American Conference of Governmental Industrial Hygienists; ANSI- American National Standards Institute; Canadian TDG-Canadian Transportation of Dangerous Goods; CAS- Chemical Abstract Service; Chemtrec- Chemical Transportation Emergency Center (US); CHIP-Chemical Hazard Information and Packaging; DSL- Domestic Substances List; EC- Equivalent Concentration; EH40 (UK)-HSE Guidance Note EH40 Occupational Exposure Limits; EPCRA- Emergency Planning and Community Right-To-Know Act; ESL- Effects screening levels; HMIS-Hazardous Material Information Service; LC- Lethal Concentration; LD- Lethal Dose; NFPA- National Fire Protection Association; OEL-Occupational Exposure Limits; OSHA- Occupational Safety and Health Administration, US Department of Labor; PEL- Permissible Exposure Limit; SCBA- Self-Contained Breathing Apparatus; STEL- Short Term Exposure Limit; TCEQ - Texas Commission on Environmental Quality; TLV- Threshold Limit Value; TSCA- Toxic Substances Control Act Public Law 94-469; TWA - Time Weighted Value; US DOT- US Department of Transportation; WHMIS- Workplace Hazardous Materials Information System.
