- Cosmetic Manufacturers

Product Characteristics:

Appearance:	Colored liquid.
Odor:	Typical.
pH:	9-11.
Boiling Point:	180°F
Viscosity:	Water thin.
Flash Point:	(82°F) ASTM D56.
Evaporation Rate:	<1.
Specific Gravity:	0.95.
Solubility (water):	Completely soluble.

Storage: Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials and food or drink. Separate from acids. Keep container tightly closed and sealed until ready for use.

Transport Information:

Proper Shipping Name:	Flammable Liquid, N.O.S.
UN Number:	UN1993.
Class:	3.
Packing Group:	III.

DOT Placard:

Not applicable.

**This product ships hazard in 5 gallon and larger sizes.*

Directions:

1. Automatic scrubbers: Use steel, wire or other aggressive brush. Fill tank with undiluted cleaner. Lay down solution with scrubbing action. Allow solution to remain on surface for 5 minutes. Scrub again and pick up soiled solution with wet vac or mop.
2. Rotary floor machine: Use steel, wire or other aggressive brush. Apply solution by spray or mop. Allow to soak 5 minutes. Scrub well and pick up with mop.
3. Manual cleaning: Apply cleaner by spray, mop or sponge. Follow with aggressive, double brushing or scrubbing. Pick up with wet vac or mop.
4. **Important instructions on rinsing:** This product may be rinsed at temperatures above 0°F. Always wet vac or mop dry to prevent any resulting residue.

Not for use on freezer unit.
