

FOOD SERVICE BROCHURE

WHAT ARE FOOD SERVICE PRODUCTS?

Food Service Products are products that are designed for companies that manufacture products to be consumed or used by people. Food and beverage companies are required to scrutinize their processes for cleanliness, contamination, sanitation and quality.

Just as manufacturing facilities for non-consumer production, the machinery in these plants require cleaning and lubrication to maintain the pumps, hoses, chain drives, mixers, conveyor belts, tanks and all other equipment. However, because of their safety and quality requirements, they must use products that have been approved for use in the food service industry.

Until 1998, the USDA classified and authorized non-food compounds used in the manufacturing of food, beverage, cosmetic and pharmaceutical products. In 1999, the National Sanitation Foundation (NSF), a not for profit, third-party certifier specializing in public health and safety, revived the USDA authorization program, which is now fee-based. Any product that was authorized by USDA before 1998 can still use the "USDA Authorized" claim.

COMPANIES WHO USE FOOD SERVICE PRODUCTS

- Bakeries
- Bottling Companies
- Box Manufacturing Plants
- Breweries
- Canneries
- Cosmetic Manufacturers
- Creameries
- Culinary Schools
- Dairies
- Edible Chemical Manufacturing
- Egg Processors
- Food & Processing Plants
- Healthcare Facilities
- Hospitals
- Hotels/Motels
- Industrial Plants
- Industrial Rendering
- Manufacturing Plants
- Meat & Poultry Plants
- Packaging Manufacturers
- Packaging Plants
- Correctional Institutions
- Schools & Universities
- Water Treatment Plants

SPECIALTY CLEANERS

SHORT CUT #2655

Foaming Oven and Grill Cleaner

- Thick foam clings to vertical surfaces
- Non-flammable
- Non-toxic fumes
- Penetrates and loosens baked on soils

NICKEL SHINE #2553

Ice Machine Cleaner

- Non-fuming, non-foaming cleaner
- Removes built-up lime scale
- Minimizes corrosion
- Improves ice quality
- Eliminates cause of equipment jamming

GENERAL LUBRICANTS AND OILS: INCIDENTAL CONTACT

SANI-LUBE #1098901

Aerosol Food Grade Lubricant & Protectant

- Non-toxic
- Odorless and tasteless
- No solvents added
- Contains no silicones
- Contains no water or fillers
- Resists water washout
- Operating range: 0°F to +300°F
- USDA Rating: H1

SILICONE PRO #1782

Aerosol Heavy Duty Silicone Dry Lubricant

- High silicone content
- Lubricates and protects
- Has a convenient, up/down valve to spray in any position
- Colorless, odorless and non-staining
- Inhibits rust from forming
- Keeps materials from sticking to conveyor belts
- Prevents papers and plastics from sticking to heat sealing equipment
- Heat stable and dries quickly
- Temperature range from -58°F to +575°F

SLIP-EZ #1263

Aerosol Food Grade Silicone Lubricant

- Non staining – fast drying
- Heat stable from -40°F to over 392°F
- Non-chlorinated, safe on plastics
- Colorless, odorless and stainless
- Reduces friction and wear
- High viscosity

PURE LINK #1786

Aerosol Food Grade Semi-Synthetic Chain Lube

- For use on all types of chains and conveyors in food contact areas
- Wide temperature range of 0°F – 325°F
- Resists washout and sling off
- High flash point
- Penetrates, lubricates and protects
- NSF Rating: H1

WHITE SHIELD #2788

Food-Grade, Anti-Seize Compound

- Prevents galling and seizing
- Non-melting
- Prevents rust and corrosion
- Non-drying
- Creates a leak-proof seal
- Protects to 1800°F
- Contains PTFE
- Chemical and steam resistant
- NLGI Grade: 1
- FPA: H1
- Meets requirements for Kosher certification

LOOSEN UP #1785

Aerosol Food Grade Penetrating Oil

- Prevents rust
- Loosens corroded parts
- Penetrates quickly
- Long lasting lubrication
- Makes disassembly and retooling faster
- Complies with FDA regulations CFR Title 21, 178.3570.
- Great to use after pressure washing or steam cleaning to help eliminate rust
- Safe for all metal surfaces and most plastics
- NSF Rating: H1

PRO LUBE #2773

Bearing Grease for Food Processing & Packaging Industry

- Extremely water resistant
- Non-melting
- High film strength
- Prevents rust and corrosion
- Reduces friction and wear
- Semi-synthetic
- NLGI #2
- NSF Rating: H1

GENERAL CLEANER

RINSE FREE #2872

No Rinse Floor Cleaner

- Contains the addition of enzyme fortification
- Cleans with cold water
- Improves traction and reduces accidents and falls
- Continues to break down fats, oils and grease left in the pores
- Reduces unpleasant, stale odors
- Deep cleaning and rinse free
