Penetrant Lubricants

Bolt Blaster #1756

- Rapidly cuts through rust and corrosion
- Breaks hard surface tension fast
- Creeps into cracks and crevices and threads with capillary wet-drilling action
- Contains built-in cleaners which help dissolve solidified grease, oil, accumulated rust and dirt
- Reduces friction and wear over a broad temperature range
- Powerful jet spray
- Performs especially well in corrosive environments, including those found near saltwater and mines
- Leaves a long-lasting protective coating to prevent corrosion

Slither #1727

- Loosens frozen metal parts
- Harmless to metal
- Penetrating and lubricating oil
- Professional results every time
- Removes rust and gummed oil
- Dissolves rust, lubricates and prevents further rust buildup
- Displaces moisture and can be used as a cutting oil
- Great to use on nuts, bolts, studs, screws, pulleys, shafts, bearings, guns, pipe threads, valve guides, and more

4-N-1 #1707

- Lubricates and creates waterproof film
- High dielectric strength of 39,000 volts, nonconductive
- Contains no chlorinated solvents or methylene chloride
- Dries wet electric contacts
- Has an up/down valve that allows for spraying in every position
- Extension tube for pinpoint application is also included
- Displaces water and moisture in wet electrical systems
- Frees rusted bolts, studs & other fittings
- Safe around most plastic and paint
- Food Processing Acceptability: H2
- Flushing agent

Chill Out #1708

- Freezing action breaks open rust barrier
- Nonconductive to 33,000 volts for use around live equipment
- Ultra-low VOC content
- No chlorinated solvents, no ozone depleters
- Up/down valve to spray in any position
- Large button helps prevent freezing skin
- Converts rust to black liquid
- Innovative XA-17™ rust eating technology dissolves rust

Lub-All #1738

- Allows maximum penetration and rapid set up of the grease-like lubricant
- Helps prevent rust and corrosion
- Lasts longer than conventional lubricants
- Prevents sticking & freezing of rubber to metal
- Will withstand temperatures of -30°F to over 600°F
- Resists water washout
- Contains no CFC's, which deplete the ozone layer
- Food Processing Acceptability: H2

Pro Tools MP Penetrant Lubricant #1496

- Protects against corrosion
- Nonflammable
- Conforms to Military Specification Mil-C-23411 for corrosion prevention
- Nonconductive up to 37kV
- Contains no ozone depleting agents
- Excellent rust buster
- Food Processing Acceptability: H2
