

LEMON DROP #2395

Wastewater & Sewer Deodorizer

Features:

- Ready to use
- Does not affect bacterial action
- Water based – no harmful solvents
- Attacks the odor
- Formulated to control obnoxious odors
- FPA: C1

Description:

LEMON DROP is a water-based deodorizer that contains no harmful solvents, making it perfect for use when you do not want the bacterial action in digesters, septic tanks and drain fields disturbed. Its powerful formula quickly and effectively controls obnoxious odors in sewage plants, lagoons, mains and laterals and other wastewater facilities. It has a pleasant, lemon fragrance that is powerful enough to quickly knock out the most pungent of odors.

Applications:

- Wastewater Treatment Plants
- Aerators
- Garbage Containers & Trucks
- Lagoons
- Dumps
- Drain Fields
- Mains & Laterals
- Septic Tanks
- Sewer Lines

For Use By:

- Municipalities
- Water Treatment Plants
- Waste Disposal Companies
- Utility Companies
- Wastewater Treatment Plants
- Industrial Rendering

Product Characteristics:

Appearance:	Clear to hazy yellow liquid
Odor:	Lemon
Boiling Point:	No data available
Vapor Pressure:	No data available
Specific Gravity:	0.99 g/ml
Solubility (water):	Complete
Relative Density:	No data available
Flash Point:	108°F closed cup
VOC (%):	<10%
pH:	7 – 8.5
Storage:	Store in a well-ventilated place. Keep cool.
Transport Information:	
UN Number:	Not regulated for transport
Proper Shipping Name:	Not regulated for transport
Class:	Not regulated for transport
Packing Group:	Not regulated for transport

Directions:

See product label for complete directions.

Spray, mist or inject undiluted product into feed lines. Amount of product required will vary with the temperature, air movement and intensity of the odor.

For garbage containers, trucks and dumps, spray liberally over the source of the odor.
