| PRODUCT DESCRIPTION: | Extreme Pressure Calcium S Grease | Sulfonate | INFOTRAC: | - | 1-800-535-5053 |
| COMPANY INFORMATION: | PRO CHEM, INC. 1475 Bluegrass Lakes Park Alpharetta, GA 30004 | way | | | |
| 2. Hazards Identification | | | | | |
| GHS CLASSIFICATION: OSHA Hazard Communication S considered hazardous in accord 2012, 29 CFR 1910.1200 | | SIGNAL WOF Warning | RD: SYMBOL: | | |
| Response: IF IN EYE persists, get medical a Storage: None. Disposal: None. HAZARDS NOT OTHERWISE S Not applicable. SUPPLEMENTAL INFORMATION | ITS: ce, hands and any exposed sk S: Rinse cautiously with water attention. | for several time | es. Remove contact ler | | le to do so. If eye irritation |
| 3. Composition / Information of | on Ingredients | | | | |
| Chemical Name | | | CAS | | on % by Weight |
| Petroleum distillate, hydrotreated Petroleum distillate, hydrotreated | | | 64742-52-5 64742-54-7 | | 0-40 |
| Calcium Carbonate | a neavy paramine | | 471-34-1 | | 1-10 |
| *The exact percentage of ingred | ients may have been held as t | rade secret and | there may be batch to | batch variation in their qu | antities. |
| ADDITIONAL INFORMATION: and their percentages of compo | | losed. The deta | ails about their specific | chemical names and their | percentages may be |
| provided on request to health proprovisions of this paragraph. 4. First Aid Measures | | | | | lance with applicable |

5. Fire-Fighting Measures

SUITABLE FIRE EXTINGUISHING MEDIA:

Water spray (fog), dry chemical, foam, or carbon dioxide. Sand to extinguish flames.

UNSUITABLE FIRE EXTINGUISHING MEDIA:

Water stream may splash burning liquid and spread fire.

SPECIFIC HAZARDS ARISING FROM THE CHEMICAL:

Hazardous combustion product may include a complex mixture of airborne solid and liquid particulates and gases (smoke), carbon monoxide, unidentified inorganic and organic compounds.

Explosion Data:

Sensitivity to Mechanical Impact: None.

Sensitivity to Static Discharge: None.

SPECIAL PROTECTIVE EQUIPMENT FOR FIREFIGHTERS:

Proper protective equipment includes chemical resistant gloves to be worn, chemical resistant suit is recommended when large contact with spill product is expected. Self-contained breathing apparatus (SCBA) must be worn when approaching a fire in confined area. Select the firefighters clothing approved by relevant standard, e.g. MSHA/NIOSH approved or equivalent and full protective gear.

6. Accidental Release Measures

PERSONAL PRECAUTIONS:

Fully encapsulating, vapor protective clothing should be worn for spills and leaks with no fire. Do not touch and walk through spill area. Do not touch damaged container or spilled material unless wearing appropriate protective clothing/equipment. Ventilate the closed area.

EMERGENCY PROCEDURES:

Isolate the spill / leak area in all directions for about 50 meters (150 ft) for liquids and about 25 meters (75 ft.) for solids and semi solids. Eliminate all ignition sources (no smoking, flares, sparks/flames in close vicinity). Keep unauthorized person away, and ventilate closed space before entering.

ENVIRONMENTAL PRECAUTIONS:

Use appropriate measures for containment of spilled material to the environment. Prevent from entering/ spreading to drain, water, river, ditches by using sand, earth, floor dryers or other appropriate barriers.

METHODS & MATERIALS FOR CONTAINMENT & CLEANUP:

Shovel into suitable properly marked container for disposal or reclamation in accordance with local regulations.

REFERENCE TO OTHER SECTIONS:

Refer to Section 8 – exposure control/personal protection and Section 13- disposal considerations.

7. Handling and Storage

GENERAL PRECAUTIONS:

Store in well-ventilated area, if risk on vapor inhalation is there. Use the information in this data sheet as input for risk management arising due to local conditions which help to manage safe handling of this product.

SAFE HANDLING:

Avoid prolonged and repeated contact with skin. Avoid inhaling the vapors/mist. When handling the drums, kegs, pails etc., proper safety shoes and other protective clothes, safety glasses, etc. should be worn. Dispose appropriately any contaminated rags/material as per prevailing local allowable practices. Keep containers in closely tight and cool and well ventilated areas.

SAFE STORAGE & INCOMPATIBILITIES:

Keep containers tightly close, well-ventilated areas but covered, avoiding contact with rain or other water ingress possibilities. Keep the storage place cool, preferably <120°F/ <50°C. Higher temperature may create pressure buildup inside container and chances of container busting or leakage may occur under aggravated conditions. Keep away from other oxidizing and incompatible materials. **Incompatible Products:** Strong oxidizing agents. Strong reducing agents.

8. Exposure Controls / Personal Protection

| EX | POSURE GUIDELINES | | | |
|----|------------------------------------|---------------------------------------|--|--|
| | Chemical Name | ACGIH TLV | OSHA PEL | NIOSH IDLH |
| | Petroleum distillate, hydrotreated | TWA: 5 mg/m ³ as oil mist, | TWA: 5 mg/m ³ as oil mist, mineral | - |
| | heavy paraffinic | mineral | | |
| | Calcium carbonate | - | TWA: 15 mg/m ³ TWA: 5.0 mg/m ³ | TWA: 10 mg/m ³ total dust |
| | | | | TWA: 5.0 mg/m ³ respirable dust |

Immediate dangerous to life or health. ACGIH TLV: American Conference of Government Industrial Hygienists – Threshold Limit Values. OSHA PEL: Occupational Safety and Health Administration – Permissible Limits.

OTHER EXPOSURE GUIDELINES:

Vacated limits revoked by the Court of Appeals decision in AFL-CIO v. OSHA, 965 F. 2d 962. (11th Cir., 1992).

PERSONAL PROTECTIVE EQUIPMENT:

Eye/Face Protection: Safety glasses with side-shields. Risk of contact, wear: Chemical splash goggles.

Skin Protection: Impervious clothing. Protective gloves.

Respiratory Protection: If exposure limits are exceeded or irritation is experienced, NIOSH/MSHA approved respiratory protection should be worn.

General Hygiene Considerations: When using, do not eat, drink or smoke. Provide regular cleaning of equipment, work area and clothing. Keep away from food, drink and animal feeding stuffs. Avoid contact with skin, eyes and clothing. Wash hands before breaks and immediately after handling the product.

APPROPRIATE ENGINEERING CONTROLS:

Showers eyewash stations ventilation systems

ENVIRONMENTAL ÉXPOSURE CONTROLS:

Minimize release to the environment. Follow best practices for site management and disposal of waste as per local regulations.
