

WEED KILL #2811

Non-Selective, Total Kill Herbicide

Features:

- Quickly and effectively kills all vegetation
- A single application stops weeds for an entire growing season
- Concentrated
- Cost effective

Active Ingredients:

Prometon: 3.73%

Description:

WEED KILL is designed for use where control of all vegetation is desired. This emulsifiable, total-kill herbicide works primarily through the roots, requiring adequate rainfall to move the product into the root zone. The degree of control and duration depends on the amount of WEED KILL applied, rainfall, soil type and temperature at the time of application. Recommended to use in non-cropland areas, away from the roots of desired plants, brush, foliage and trees. Application should be outside of the drip line of trees. Do not use this product in recreational and residential areas.

Effective Against:

- Foxtail
- Ragweed
- Bracken Fern
- Ryegrass
- Turkey Mullein
- Horsetail
- Wild Oats & Wild Carrot
- Johnson Grass
- Bouncing Bet
- Crabgrass
- Cheatgrass
- Lambsquarter

Applications:

- Fence Lines
- Pipe Lines
- Bride abutments
- Railroad Sidings
- Parking Lots
- Bleachers
- Building Perimeters
- Road Signs
- Tank Farms
- Loading Ramps
- Storage Yards
- Oil & Gas Pipelines

For Use By:

- Bus Garages
- Hospitals
- Nursing Homes
- Utility Companies
- Factories
- Hotels/Motels
- Correctional Facilities
- Sewage Plants
- Fleet Operations
- Industrial Plants
- Railroads
- Manufacturing Plants
- Freight Carriers
- Military Facilities
- Warehouses
- DOT's

Product Characteristics:

Appearance:	Reddish, brown liquid
Odor:	Petroleum like
Viscosity, Kinematic:	<20 cSt
VOC Content:	>90%
Specific Gravity:	0.87 g/mL
Solubility (water):	Emulsifies in water
pH:	No data available
Flash Point:	123°F
Melting Point:	No data available
Decomposition Temp:	No data available
Storage:	Store in well-ventilated place. Keep container tightly closed. Keep cool. Store locked up.
Transport Information:	
UN Number:	UN1993
Proper Shipping Name:	Flammable liquids, n.o.s.
Class:	3
Packing Group:	III – Minor damage

Directions:

See product label for complete directions.

Typical Application: Mix 1 gallon with 10 gallons of water and apply over 1,000 square feet.

Hard to Control Weeds: For hard-to-control perennials and grasses such as Johnson grass, bindweed and wild carrot, use 1 1/2 to 1 2/3 gallons mixed with 10 gallons of water per 1,000 square feet.
