

# ANTI-CORROSION

**ARMOR GUARD**  
#145801

**Aerosol Spray-On  
Rubber Coating**

- Forms a protective dielectric seal on electrical connections and helps eliminate loosening of connections due to vibration
- Prevents rust and corrosion
- Dries in minutes to a crystal clear rubber film
- Clear color allows for easy visual inspection of all wires when dry
- Includes inhibitors to resist mold and mildew
- Inert to salt, water, alkaline, pollutants and some petroleum products
- 1 mil of ARMOR GUARD has the dielectric properties to withstand 75 volts

**FLEXI COAT PLUS**  
#145401

**Aerosol Flexible Black  
Rubberized Sealant**

- Seals leaks in gutters, flashing and roofs
- Use as a sealant on pails, planters, trashcans
- Excellent as a sealer after pruning trees
- Can also be used as an autobody undercoating
- Prevents rust and corrosion
- Fast drying, paintable, will not crack or chip

**PRIME TIME**  
#163001

**Aerosol One-Step Rust  
Neutralizer and Metal  
Primer**

- Converts rust to a durable coating that darkens where the rust was
- Prolongs the life of ferrous metal
- Eliminates the need for scraping and sandblasting
- Non-flammable when dry
- No major surface preparation required
- Prevents future rusting
- Can be painted after curing

**PROTECT-O-FLEX**  
#172801

**Aerosol Metal Parts  
Protector and Battery  
Terminal Coater**

- Seals metal parts against corrosion and rust
- Ozone safe
- Effective from -40°F to +175°F
- Non-tacky, flexible film
- Will not flake, crack, peel or become brittle
- Non-chlorinated
- Easily removed with safety solvent
