AUTOMOTIVE

ALUMI-FORCE #2696

Aluminum Cleaner and Brightener

- Cleans and brightens instantly
- Can be used for preparation before painting
- Quickly removes oxidation and road film
- Brightens uniformly
- A heavy-duty, acid based product
- Available in 1 gallon jugs, 5 gallon pails and 55 gallon drums

ALUMI-FORCE is specially formulated to instantly remove soil, grease, oxidation and corrosion from aluminum surfaces. Safe for many aluminum applications, ALUMI-FORCE is a multipurpose cleaner that works quickly to clean and brighten truck trailers, aircrafts, window trim and various other surfaces. With a VOC compliant formula and no hydrochloric or hydrofluoric acids, it is a safer alternative to other aluminum cleaners. It can also be used as a preparation before painting. Just apply and rinse.

Ideal for: aluminum, aircraft, truck trailers, magnesium, A/C coils, screens, trim, buses, trucks, schools, hospitals, bus garages, airports, factories, freight carriers, athletic clubs, restaurants, municipalities, hotels, motels, colleges, universities, fleet operations

Appearance	Colored liquid
Odor	Fragranced

INDUSTRIAL SPECIALTIES

ENVIRO SOLUTION WIPES #3433

Microbe-Powered Wipe with Bioremediation Technology

- Non-abrasive wipe
- Leaves no gritty residue
- Phosphate-free
- Nontoxic and biodegradable formula
- Safe to use on any water-safe hard surface including metal, concrete, plastic, tile, urethane, VCT, epoxy and waxed floors and rubber
- Soft and durable for extended use
- Neutral pH
- Non-corrosive and non-hazardous
- Pre-moistened wipes
- Wipe size: 7" x 8", 30 per canister

ENVIRO SOLUTION WIPES are an effective way to clean hard surfaces such as tools and equipment. Safe for use on any water-safe hard surface, ENVIRO SOLUTION WIPES provide heavy-duty grease dissolving action with the convenience of a ready-to-use wipe. The non-hazardous, phosphate-free formula has no odor or fumes, making them a safer option for spill cleanup. The pre-moistened wipe also contains a solution that makes it easy to quickly clean up spills and leaves no gritty residue. Its non-abrasive texture still has the toughness and durability of an industrial wipe without the use of harsh chemicals.

Ideal for: grease, tar, ink, oil, grime, spills, hydraulic fluid, stains on hands, military facilities, municipalities, factories, fire houses, bus garages, freight carriers, fleet operations, utility companies

Appearance	Light amber polyester wipe
Odor	Bland

SPRAY-N-SEAL - WHITE #1453

Aerosol Roof Patch and Leak Sealer

- Multipurpose sealant
- Coating remains flexible and will not crack or peel
- Resists water
- Protects against UV rays
- Thermoplastic base
- Can be painted over with latex or oil paints
- Resists heat up to 250°F

SPRAY-N-SEAL is a versatile sealant that provides durable, flexible, rubberized film. It protects against harmful UV rays and resists heat up to 250°F. Additionally, it remains pliable and will not crack or peel, even in cold temperatures. This product contains a thermoplastic elastomer base that makes it highly effective in sealing leaks around windows, doors, roofs and air vents. Its water resistant properties and wide temperature range make it perfect for use on outdoor applications.

Ideal for: skylights, windows, concrete, flashings, gutters, shingles, lashings, air vents, driveway and sideway cracks, roofs on campers or buses, semi-trailers, houses, PVC, utility companies, colleges/universities, municipalities, warehouses, housing authorities, parks and recreation, bus fleets, DOT

Appearance	Aerosol
Odor	Aromatic

INDUSTRIAL SPECIALTIES

STRIP MASTER - AEROSOL

#1580

Aerosol Paint Removing Gel

- Methylene chloride-free
- Works quickly
- Removes a wide range of paints and sealers from metal, concrete and wood
- Gel-based formula clings to vertical surfaces for longer contact time
- Blistered paint can be scraped off or rinsed off with water
- Blistering will start to occur in 3-4 minutes of application

STRIP MASTER AEROSOL is a gel-based paint remover. It penetrates deep to remove paint, lacquer, shellac, enamel, varnish, labels, carbon deposits, silicone, simulated wood paneling and similar materials from all surfaces. With a methylene chloride-free formula, STRIP MASTER AEROSOL is the safer alternative for paint removal. It begins stripping and blistering paint 3-4 minutes after application. After product is done blistering, simply scrape off or rinse with water to remove.

Ideal for: paint, lacquers, varnish, labels, shellac, enamel, carbon deposits, silicone, simulated wood paneling, paint shops, factories, auto dealers, motels, hotels, hospitals, offices, maintenance departments, furniture rebuilders, sign builders

Appearance	Clear blue green spray
Odor	Acetone odor

STRIP MASTER

#2580

Paint Remover

- Methylene chloride-free
- Works quickly
- Gel-based formula clings to vertical surfaces for longer contact time
- Removes a wide range of paints and sealers from metal, concrete and wood
- Blistering will start to occur in 3-4 minutes of application

STRIP MASTER is a gel-based paint remover that quickly removes paint, lacquer, shellac, enamel, varnish, labels, carbon deposits, silicone, simulated wood paneling and similar materials. STRIP MASTER will not run, allowing the product to stay on longer and provide maximum results. The methylene chloride-free formula is a safer alternative to paint removal, but still performs to meet industry expectations.

Ideal for: metal parts, ceramic, plaster, shellac, enamel, silicone, carbon deposits, decals, glue, simulated wood paneling, auto dealers, paint shops, sign builders, factories, painters, schools, motels, hotels, maintenance departments, hospitals, offices, furniture refinishers, engine rebuilders

Appearance	Clear blue green liquid
Odor	Acetone odor

DISINFECTANTS & DEODORANTS

EVOKE

#2570

Scent Diffuser

- Pure fragrance oils
- VOC exempt fragrances
- No propellants
- Low fragrance particles (below 5 microns) allowing for longer 'hang time'
- Contains malodor counteractant and odor neutralizer
- Available Blackberry Garden #257011, Mountain Woods #257001, Vanilla Musk #237201

EVOKE neutralizes odors while providing a fresh fragrance to any space. It uses atomizer technology to provide quiet and discreet dispensing. Available in a variety of scents, EVOKE works quickly to dissipate and fill a space, leaving a pleasant aroma behind. Research shows that the spa-like fragrances can help improve customer's and employee's emotions. Its formula of essential oils and malodor neutralizers dispensed in a fine mist makes EVOKE an efficient and low-maintenance air freshener. Use with any EVOKE DISPENSER

Ideal for: factories, bathrooms, colleges, universities, municipalities, housing authorities, warehouses, hotels, motels, school systems, city and county government

Appearance	Liquid
Odor	There may be no odor warning properties, odor is subjective and inadequate to warn of overexposure.

EVOKE WALL DISPENSER

#457001

Scent Diffuser

- Uses advanced atomizer technology
- Dispenses enough fragrance to fill up to 10,000 cubic feet
- Extremely quiet
- Good for small to medium areas
- Releases a fine mist
- Ability to set up to 4 different work periods
- Fully programmable

EVOKE DESK DISPENSER

#457011

Scent Diffuser

- Uses advanced atomizer technology
- Dispenses enough fragrance to fill spaces up to 7,000 cubic feet
- Extremely quiet
- Good for small areas
- Releases a fine mist
- Ability to set up to 4 different work periods
- Fully programmable
- Easy to refill

EVOKE FLOOR DISPENSER

#457021

Scent Diffuser

- Uses advanced atomizer technology
- Dispenses enough fragrance to fill spaces up to 70,000 cubic feet
- Extremely quiet
- Good for large commercial spaces
- Releases a fine mist
- Ability to set up to 4 different work periods
- Fully programmable
- Easy to refill
