

**Customer Testimonial:  
NATURAL AIR (#2363)**

I appreciate you calling me and following up with this order. The Housekeeping Foreperson informed me that our Visitors' Center smelled better this morning. I set the Vapor machine to run 4 hours before I left yesterday afternoon. The Visitors' Center is the main reason I purchased your system.

The first use I had with the Vapor machine was to rid the 1st floor hallway and elevator shaft of a solvent odor the painters created. The odor had created a 'situation' that required immediate attention and correction. The Vapor machine along with the Natural Air removed the offending odor.

In my opinion, I received an immediate 'perceived' return on our investment.
