WEED OUT IN A CAN #1805

Aerosol, Nonselective Weed Killer

- Fast acting and long lasting
- Soil sterilent
- Oil-based
- Kills even well-established vegetation
- Prevents the return of weeds for one growing season
- Contains both Bromacil and 2-4-D
- EPA registered

WEED OUT IN A CAN is a solvent-based, nonselective weed killer that offers not only immediate burndown through the plant's foliage but also season-long residual control. Designed for use on non cropland areas, best results will be obtained when applied in late spring or early summer and when predominant species are well-established. Weed control results vary depending on the amount of product applied, the type of soil and rainfall in the area. Product can be applied year round except when the ground is frozen.
