## Description:

POLY ISOLATION BAGS are color-coded printed bags for Infectious Waste (red), Infectious Linen (yellow) and Non-contagious Linen (blue) management. Bags are made with high quality resins and have the maximum film strength that give it exceptional puncture and tear resistance. Isolation Bags are imprinted with English and Spanish to help ensure complete understanding for safety and proper use.

## Applications:

- Hospitals
- Nursing Homes
- Dental Clinics
- Doctor's Offices
- Offices
- Veterinarians

The red and yellow POLY ISOLATION BAGS are color-coded and printed with a relative symbol for easy recognition. The blue bags are unprinted.
