PEPPERMINT STOPS #1546

Insect Repellent

Features:

- Repels mosquitos, biting flies, chiggers and ticks
- Does not harm the environment when used as directed
- Not considered a flammable aerosol or an extremely flammable aerosol by OSHA (29CFR 1910.1200)
- Active Ingredients: Peppermint and Castor Oil
- Sprays in any direction

Description:

PEPPERMINT STOPS is an insect repellent does not contain any harsh chemicals, artificial colors, fragrances, or synthetic pesticides. The peppermint fragrance repels mosquitos, biting flies, chiggers, and ticks while leaving a refreshing scent. Protects user from diseases carried by flying insects. This product is safe to use to use around children and pets and can be applied to clothing as well as skin. The formula is powerful on insects but gentle on your pack.

Applications:

- Utility Workers
- Lawn Maintenance Professionals
- Construction Workers

Product Characteristics:

Appearance:	Misting aerosol spray
Color:	Clear
Odor:	Peppermint
Boiling Point/Range:	> 212°F (100°C)
Melting/Freezing Point:	< 32°F (0°C)
Vapor Pressure:	Not determined
Solubility (water):	100%
Relative Density:	0.99 - 1.01 @ 77°F (25°C)
Flash Point:	> 200°F
Evaporation Rate:	Same as water
pH:	4.0-4.5
Toxicity:	400 ppm OSHA PEL
Flammability (solid/gas):	Not considered a flammable aerosol or an extremely flammable aerosol by OSHA (29CFR 1910.1200)
Storage:	Store at room temperature. Avoid exposure to heat and direct sunlight. Do not store at a temperature greater than 120°F.
Transport Information:	
UN Number:	UN1950
Proper Shipping Name:	Aerosols, Ltd. Qty
Class:	2.2
Packing Group:	Not applicable

Signal Word:

WARNING

Personal Protective Equipment Required:

DOT Placard:

Not available.

VOC Compliancy:

Yes.

Directions:

SHAKE WELL BEFORE USE AND WHILE APPLYING THIS PRODUCT.

Never use repellents over cuts, wounds, or irritated skin. Do not apply near eyes and mouth and apply sparingly around ears. When using sprays, do not spray directly into face; spray on hands first and then apply to face. Apply only to exposed skin and/or clothing. Do not use under clothing. Heavy application and saturation is unnecessary for effectiveness; if biting insects do not respond to a thin film of repellent, apply a bit more. After returning indoors, wash treated skin with soap and water or bathe. This is particularly important when repellents are used repeatedly in a day or on consecutive days. Also, wash treated clothing before wearing it again. If after application you feel irritation, wash thoroughly with soap and water, discontinue use. If irritation continues see a physician.

Remove protective cap, point spray valve in direction of arrow. Press valve button to spray. Hold can 6–8 inches from skin or clothing while spraying.
