

SANI-SHIELD ANTIMICROBIAL SURFACE WIPE #213811

1-Step Surface Wipe

Features:

- Cleans 99.9% of organic and inorganic soil with hydrogen peroxide
- Residue Free-1 Step Surface Wipe (Pre-moistened towelette)
- Protects with invisible barrier on which odor causing bacteria, mold, mildew will not grow in between cleaning and shields against microorganisms and biofilms.
- Shields against buildup, soil and recontamination in between cleaning
- 1 Pre-moistened towelette per pack/ 80 packs per box
- Box opens as a box or a dispensing box
- Keeps surfaces sanitary and smoother than ordinary wipes

Description:

SANI-SHIELD ANTIMICROBIAL SURFACE WIPE can be used on a multitude of surfaces. It shields with a microbial resistant barrier coating that seals the surface to eliminate the moisture and nutrients needed for microbes and pathogens to thrive and grow. It contains over .5% hydrogen peroxide which is extremely advisable by the CPD to help prevent microorganisms and viruses to thrive on a surface. It's free of harsh acids, alkalis, phosphates and ammonia, glycol ethers, terpenes, hydrocarbon propellants, CFC's, quaternary ammonium compounds and chlorine bleach.

For Use By:

- Schools
- Offices
- Warehouses
- Hotels/Motels
- Factories
- Stores
- Hospitals
- Universities/Colleges

For Use On:

- Glass
- Porcelain
- Stainless Steel

- Plastics
- Marble
- Granite
- Skin

Applications:

- Tables
- Desktops
- Shopping Carts
- Computers/IPad
- Sinks
- Phones
- IPad
- Mirrors
- Office Equipment
- Tubs
- Railings
- Faucets
- Appliances
- Door Handles
- Toilet

Product Characteristics:

Appearance:	Liquid. [Clear.]
Odor:	Fresh
Boiling Point:	100°C (212°F)
Water Solubility:	Soluble in water
Relative Density:	1
pH:	5 [Cone. (% w/w): 1%]
Flammability(solid/gas):	Nonflammable
Storage:	Not applicable
Transport Information:	
UN Number:	Not available
Proper Shipping Name:	Not available
Class:	Not available
Packing Group:	Not available

Directions:

Unfold wipe and wipe surface. (Turn wipe frequently to absorb and remove soil.) Let surface air-dry or continue wiping until wipe is dry and surface is polished.
