

SURFACE-N-AIR #1321

Sanitizing Spray

Features:

- Controls mold, mildew and fungus
- Disinfectant, deodorant and air sanitizer
- Pleasant fragrance
- EPA registered
- Kills MRSA on treated surfaces
- Virucidal against HIV-1 (AIDS Virus)
- Eliminates odors – Fungicidal

Description:

This product has been designed specifically for homes, hospitals, nursing homes, Institutions, Offices, Schools, Motels and Hotels as a disinfectant deodorant and air refresher. It is recommended for disinfection of telephones, bed springs, door knobs, linen carts, wheelchairs, light switches, garbage pails and clean hard nonporous inanimate surfaces. It will also remove foul musty odors from automobile air conditioning systems caused by mildew and odor producing organisms. Powerful deodorizers keep the automobile interiors smelling fresh and clean. In addition, this product deodorizes those areas which generally are hard to keep fresh smelling (such as garbage storage areas, empty garbage bins and cans, restrooms, shower stalls and areas which are prone to odors caused by microorganisms). This product may also be applied directly to ash trays and food spills in automobiles to eliminate odors from these sources. When used as directed, this product demonstrates effective disinfection against Staphylococcus aureus, Staphylococcus aureus-MRSA, Salmonella enterica, Pseudomonas aeruginosa and Trichophyton mentagrophytes. This product is fungicidal against Pathogenic fungi (Athletes Foot Fungus), when used as directed on hard surfaces found in the bathroom, shower stalls and locker rooms or clean hard nonporous surfaces commonly contacted by the bare feet.

Applications:

- Telephones
- Toilet Seats
- Sinks and Showers
- Garbage Cans
- Office Equipment
- Urinals

For Use By:

- Medical Facilities
- Dental Facilities
- Funeral Services
- Salons
- Nursing Homes
- Veterinary Clinics
- Hotels/Motels
- Dairy Farms
- Prisons
- Police and Fire Departments
- Food Processing Plants
- Recreational/Sport Facilities

For Use Against – Disinfectant

- Staphylococcus aureus
- Staphylococcus aureus-MRSA
- Pseudomonas aeruginosa
- Trichophyton mentagrophytes
- Salmonella enterica

For Use Against – Fungus

- Pathogenic fungi (Athletes Foot Fungus) – (when used as directed)

Product Characteristics:

Appearance:	Clear aerosol
Odor:	Medicinal, mild scent
Boiling Point:	>170°F
Vapor Density (AIR=1):	>1 @ 77°F (25°C)
Vapor Pressure:	44 @ 77°F (25°C)
Specific Gravity (H2O=1):	0.89 @ 77°F (25°C)
Water Solubility:	100%
Flash Point:	Not determined
Volatility Including Water (%):	99%
VOC (%):	60%
pH:	10
Evaporation Rate:	>1
Storage:	Protect from sunlight. Do not expose to temperatures exceeding 50°C/122°F. Store in a well-ventilated place.
Transport Information:	
UN Number:	UN1950
Proper Shipping Name:	Aerosols, Ltd. Qty
Class:	2.1
Packing Group:	None

Directions:

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Follow manufacturer's instructions for cleaning/maintaining PPE. If no such instructions for washables exist, use detergent and hot water. Keep and wash PPE separately from other laundry.

Discard clothing and other absorbent materials that have been drenched or heavily contaminated with this product's concentrate. Do not reuse them.

This product is not to be used as a terminal sterilant/high level disinfectant on any surface or instrument that (1) is introduced directly into the human body, either into or in contact with the bloodstream or normally sterile areas of the body, or (2) contacts intact mucous membranes but which does not ordinarily penetrate the blood barrier or otherwise enter the normally sterile areas of the body. This product may be used to pre-clean or decontaminate critical or semi-critical medical devices prior to sterilization or high level disinfection.

Surface Disinfection and Deodorization: (1) First remove soil deposits from surface to be treated. (2) Hold can six inches from surface & spray until completely wet, allow the surface to remain wet for 10 minutes.

Air Deodorizer, Air Freshener and Air Sanitizer: Shake well before each use. To temporarily reduce airborne odor-causing bacteria and eliminate odors, close all doors, windows, and air vents. Hold can upright, press button and spray towards the center of an average size room (12'x12'x9') for 10 seconds. For maximum effectiveness, relative humidity should be between 45% and 70%. Resume normal room ventilation after spray has settled. Repeat as necessary.

Mildewstat: To control mold and mildew on hard non-porous surfaces (such as floors, walls, table tops) spray the surface to be treated, making sure to wet completely. Let air dry. Repeat application at weekly intervals or when mildew growth reappears.

For use in automobile air conditioning systems, with engine running and air conditioner on maximum speed and cooling, spray the product into the air intake vent. Hold can eight to twelve inches above the vent while spraying four to six seconds. Make sure the spray tip is pointed directly at the intake vent before spraying. The recirculating system will pick up the product and the entire system will be deodorized in seconds. Shut off engine and air conditioner after applying the product. After applying product into the air conditioning system, get out of the car immediately. Do not return for 4–10 minutes so air in the compartment can be properly ventilated. If odors persist, repeat treatment as necessary.

Special Instructions: FOR CLEANING AND DECONTAMINATION AGAINST HIV-1 (AIDS VIRUS) OF SURFACES/OBJECTS SOILED WITH BLOOD/BODY FLUIDS.
