

CAN-GUN SPRAYER #4187

Spray Can Tool

Features:

- Reduces the amount of pressure needed to spray by up to 80%
- Easily snaps to most aerosol cans
- When used on aerosol disinfectants makes disinfecting quicker and more effective
- Ergonomic grip corresponds to the natural position of the hand, fingers, palm, wrist and forearm
- Reusable
- Full grip trigger with spray control
- Made from recycled, non-toxic plastic
- Made in the USA

Description:

CAN-GUN SPRAYER easily snaps onto most aerosol cans and can be used to apply a variety of products. It allows the user to apply product with more control and pain-free spraying, avoiding one finger fatigue for a more professional look. Double leverage action substantially reduces, on average, 10X less, the amount of force required to actuate the can's valve. The attachment ring makes attaching and removing CAN-GUN SPRAYER quick/effortless and easy. The spray can tool trigger provides 22X the surface area compared to a standard spray can valve's surface.

Applications:

- Spray Paints
- Disinfectants
- Lubricants
- Adhesives

For Use By:

- Offices
- Schools
- Hospitals
- Colleges/Universities
- Hotels/Motels
- Warehouses
- Factories
- Fleet Maintenance
- Utilities
