Description:

Fluorescent yellow safety vest helps to make the wearer more visible in all work lighting conditions and environments. It is ANSI/ISEA 107-2015 Type R CLASS 2 rated and meets the standards set by the American National Standard Institute for High Visibility Apparel and Headwear. CLASS 2 is defined by the amount of retroreflective tape per yardage, its size and amount of background vest material. TYPE R is a Roadway Classification for any occupational worker who is exposed to traffic or moving equipment.

Applications:

- DOT's
- Municipalities
- Parks & Recreation
- Public Safety
- Utilities
- Railroads
