

PRO CHEM[®] Product Bulletin

Date: 9/14/2021
Product: **Drain Free**
Product Code: 240601

We heard about and saw the damages so we've acted! Drain Free will now be shipped in a "safe to ship" box of 6 rather than the case of 12 that you've been accustomed to. You may notice a very slight increase in price (\$0.24 cents per bottle) but we feel that the decrease in damages, often times necessitating returns for your customers, is well worth the small increase. The new description in Netsuite is "Drain Free Box/6" but the item code, 240601, will remain the same. There has been no change to the product, only the shipping package. Please note, we are unable to break cases for customer orders.

New Packaging:
