

PRODUCT BULLETIN

Date: 3/2/2022
Product: **Glass Defender – Product Information Update**
Product Code: 20790

We have received a response from the lab regarding the questions asked about GLASS DEFENDER at the sales meeting. Please see the attached updated version of the product information sheet with new details added. The updated version can also be found on the Pro Chem website.

Q&A from the Meeting

Is this product safe to use on tinted glass?

The glass cleaner is safe on tinted glass and will not discolor.

Can this product be used as a windshield washing fluid?

The glass cleaner can be used as a windshield washer fluid, but in most windshield washer fluids are concentrates because it mixes with water in the reservoir. If someone were to pour the RTU glass cleaner into a reservoir, it may be wasteful.
