

# BUSTER #255201

## Concentrated Sulfuric Acid Drain Opener

### Features:

- Concentrated 93% inhibited virgin sulfuric acid liquid drain opener
- Quickly dissolves hair, paper, food, rags, grease and other organic matter
- Safe for Septic and Cesspool Systems when used as directed
- Contains inhibitors

### Description:

Concentrated 93% inhibited virgin sulfuric acid liquid drain opener. Quickly dissolves the toughest organic clogs, including paper, rags, hair, sanitary products, and food. The heat generated in the dissolving of blockages acts to melt away grease, soap, and oils. For use in sinks, toilets, tubs and showers. Use only in PVC pipes. Safe for use in drains connected to septic systems when used in quantities as directed on the label.

### For Use On:

- Hair
- Food
- Grease
- Paper
- Rags
- Organic

### Applications:

- Sinks
- Toilets
- Tubs
- Shower

### Product Characteristics:

Form:	Liquid
Color:	Red
Odor:	Acidic
Boiling Point/Range:	304°C (579°F)
Water Solubility:	Fully miscible
Relative Density:	1,83
pH:	< 1,0
Storage:	Store locked up. Store in a cool location. Protect from humidity and water. Use only receptacles specifically permitted for this substance/product.
<b>Transport Information:</b>	
UN Number:	UN1830
Proper Shipping Name:	Sulfuric acid
Class:	8 Corrosive substances
Packing Group:	II

## ATTENTION: READ ALL LABEL INFORMATION PRIOR TO USING THIS PRODUCT

Use in sinks, bathtubs, showers or toilet bowls. Safe for septic and cesspool systems when used as directed.

### PLEASE READ PRIOR TO USING THIS PRODUCT:

#### READ ALL LABEL INFORMATION PRIOR TO USING THIS PRODUCT.

Do not use without protective gear, do not use in metal pipes, do not use in stainless steel sinks, do not use in garbage disposals, do not use in dishwashers or in washing machines, do not use a plunger, do not use in the presence of children or pets, do not use before, with or after any other chemicals, or where other drain openers are present. It can cause dangerous gasses or violent reactions.

This product does not eat through roots. When transporting, handling and storing product make sure it is in an upright position, capped securely and stored in the original plastic bag.

### Directions:

#### READ ALL LABEL INFORMATION PRIOR TO USING THIS PRODUCT. DO NOT USE WITHOUT PROTECTIVE GEAR.

Use with adequate ventilation. Open windows and use a fan if available (direct fan towards window). Do not breathe vapors. Do not stand over, or look into, the drain (or bowl) while using. Do not pour into standing water. Bail to reduce the water level, down to the drain opening. Remove strainer from drain if possible. Before pouring, place a **plastic bucket or large, deep, plastic container** under the drainpipe to protect from possible leakage. After pouring this product into the drain (or toilet), immediately place inverted dishpan, bucket or other deep plastic container over drain (or bowl) opening, to protect against possible eruption of drain contents and acid.

**PRODUCT OPENING INSTRUCTIONS:** Put container on a flat stable surface. Carefully remove tamper-evident seal. While gently pushing down, turn the cap counter-clockwise. Do not squeeze bottle. Carefully remove the inner seal.

See chart to determine the amount of product to use. At arms length, slowly pour product directly into the drain opening (See DISCOLORATION WARNING). If drain does not clear, repeat application. Not intended to be left overnight.

**ADDITIONAL ITEMS TO HAVE ON HAND:** Petroleum jelly, baking soda, and 3 plastic dishpans, buckets or other deep plastic containers.

**REQUIRED PERSONAL PROTECTIVE EQUIPMENT:** Always use a full-face shield, safety glasses and rubber gloves when handling this product. Failure to use personal protective equipment may result in injury.

#### FURTHER INFORMATION ABOUT STORAGE CONDITIONS:

Store in cool, dry conditions in well-sealed receptacles.

Store receptacle in well-ventilated area.

Store under lock and key and out of the reach of children.
