

PRODUCT BULLETIN

Date: 7/29/2022

Products: **Temp-Plate, Hi-Temp, Litho Lube, and Ultra Temp**

We were recently made aware that our Temp-Plate, Hi-Temp, Litho Lube, and Ultra Temp supplier is no longer going to be able to supply us with our greases. Cindy Breaud was eager and kind enough to test samples of Temp-Plate and Hi-Temp for us and thought that they were suitable replacements.

We have fast tracked an order of Hi-Temp tubes from the new supplier as what we had on order with the old supplier was cancelled. This new order of Hi-Temp tubes will have generic labeling, while we finalize our new designs. Due to a shortage of plastic tubes, the Hi-Temp tubes will also arrive in cardboard tubes. The plastic tubes are estimated to be available in October. The product is expected to ship to us in the next two to four weeks. The new names for these greases will be **Temp-Plate II, Hi-Temp II, Litho Lube II, and Ultra Temp II**. We are still looking for replacements to Litho Lube and Ultra Temp, but those are less pressing needs and we have a little more time with them.

Please see our remaining stock below.
